Decision and Organization C. B. McGuire, 1986-01-01

Decision and Organization Kenneth Joseph Arrow, 1972

Decision and organization Kenneth J. Arrow, 1972

Entrepreneurship and the Market Process David A

Harper, 2002-01-08 Entrepreneurship is central to the market process and yet most theories of it fail to tackle the problem of how economic agents learn from their experience This book redresses this by systematically applying the ideas of Karl Popper It treats the entrepreneur as a theorist who develops conjectures which are then tested by exposure to the market in an effort to eliminate errors This is a critical aspect of the development of new ventures as most entrepreneurial ideas turn out to be mistakes at least in their original form

The Economics of the Global Environment Graciela

Chichilnisky, Armon Rezai, 2017-05-18 This is the first book combining research on the Global Environment Catastrophic Risks and Economic Theory and Policy Modern economic theory originated in the middle of the twentieth century when industrial expansion coupled with population growth led to a voracious use of natural resources and global environmental concerns It is uncontested that for the first time in recorded history humans dominate the planet changing the planet's atmosphere its bodies of water and the complex web of species that makes life on earth This radical change in circumstances led to rethinking of the foundations of human organization and in particular the industrial economy and the economic theory behind it This book brings together new approaches on multiple levels environmental sustainability requires rethinking in terms of economic theory and policy as well as the considerations of catastrophic risk and extremal events Leading experts address questions of economic governance risk management policy decision making and distribution across time and space

On Science, Inference, Information and Decision-Making A. Szaniawski, 2012-12-06 There are two competing pictures of science One considers science as a system of inferences whereas another looks at science as a system of actions The essays included in this collection offer a view which intends to combine both pictures This compromise is well illustrated by Szaniawski's analysis of statistical inferences It is shown that traditional approaches to the foundations of statistics do not need to be regarded as conflicting with each other Thus statistical rules can be treated as rules of behaviour as well as rules of inference Szaniawski's uniform approach relies on the concept of rationality analyzed from the point of view of decision theory Applications of formal tools to the problem of justice and division of goods shows that the concept of rationality has a wider significance Audience The book will be of interest to philosophers of science logicians ethicists and mathematicians

Economic Institutions in a Dynamic Society: Search for a New Frontier Takashi Shiraishi, Shigeto

Tsuru, 1989-07-31 This is a compilation of the proceedings and papers presented at an international conference on the organization of economic institutions in a dynamic society which includes detailed comment and discussion sections following each lecture

Game Theory and Society Weiying Zhang, 2017-12-14 The progress of society can only happen through interpersonal cooperation because only cooperation can bring about mutual benefit thus bringing happiness to each person

This should be our collective rationality but we often see it conflicts with individual interests which leads to the so called Prisoners Dilemma and does not bring happiness to all From a game theoretical perspective this book addresses the issue of how people can cooperate better It has two objectives The first is to use common language to systematically introduce the basic methodologies and core conclusions of Game Theory including the Nash equilibrium multiple equilibriums dynamic games etc Mathematics and theoretical models are used to the minimum necessary scope too to make this book get access to ordinary readers with elementary mathematical training The second objective is to utilize these methods and conclusions to analyze various Chinese social issues and institutional arrangements with a focus on the reasons people exhibit non cooperative behaviors as well as the institutions and cultures that promote interpersonal cooperation In addition to economics specialists in sociology law history politics and management will also be attracted by this book for its insightful analysis on the issue of cooperation in these fields Also readers curious about Chinese society will benefit from this book

Decision and Organization Jacob Marschak,1972 Commerce, Complexity, and Evolution William A. Barnett,2000-06-05 Evolutionary approach to systems from the entire economy to the behaviour of single markets Journal of the American Statistical Association American Statistical Association,1973 A scientific and educational journal not only for professional statisticians but also for economists business executives research directors government officials university professors and others who are seriously interested in the application of statistical methods to practical problems in the development of more useful methods and in the improvement of basic statistical data **Economic Books** ,1986 *Index of Economic Articles in Journals and Collective Volumes* ,1986 **The Cumulative Book Index** ,1988 A world list of books in the English language Working Paper ,1979 Decisions in Public and Private Sectors Donald J.
