Decline And Fall Of Leftism:

The Rise and Fall of Leftist Radicalism in America Edward Walter, 1992-11-30 Analyzes the history of American radicals of the left from their emergence as an opinion shaping force during the Great Depression to the present and concludes that they have been a destructive force in American history *The Decline and Fall of Leftism* Colin Wilson, 1988 *Books in Print* , 1994 *From Movements to Parties in Latin America* Donna Lee Van Cott, 2007-04-30 Provides a detailed treatment of an important topic that has received no scholarly attention the surprising transformation of indigenous peoples movements into viable political parties in the 1990s in four Latin American countries Bolivia Colombia Ecuador Venezuela and their failure to succeed in two others Argentina Peru The parties studied are crucial components of major trends in the region By providing to voters clear programs for governing and reaching out in particular to under represented social groups they have enhanced the quality of democracy and representative government Based on extensive original research and detailed historical case studies the book links historical institutional analysis and social movement theory to a study of the political systems in which the new ethnic cleavages emerged The book concludes with a discussion of the implications for democracy of the emergence of this phenomenon in the context of declining public support for parties **Labour History Review** , 1990 **Fascism in the Middle East** Saladdin Bahozde, 2025-01-14 Following decades of brutal campaigns against left forces fascism in its nationalist and religious forms has been dominating Turkish Iranian and Arab politics for over half a century At first with key enemies vanquished military generals assumed power and established some of the most terroristic totalitarian regimes in the 20th Century It only followed that Islamist organizations then hijacked democratic movements of dissent Now in countries and territories where they have assumed state power Islamist forces have surpassed all nationalist dictatorships for their utter disrespect of human lives Today Islamism subordinates peoples in the Middle East Bearing the urgency of our times Saladdin Bahozde problematizes all forms of fascist exclusionism in the region while drawing attention to anti fascist resistance and progressive alternatives there As a critique of identitarianism and right wing politics in the Middle East and North Africa the work calls for a global movement as endorsed by the peoples of the region to go beyond nationalism and Islamism *Guide to Reprints* Albert James Diaz, 2000 **Counting Islam** Tarek Masoud, 2014-04-28 Why does Islam seem to dominate Egyptian politics especially when the country s endemic poverty and deep economic inequality would seem to render it promising terrain for a politics of radical redistribution rather than one of religious conservatism This book argues that the answer lies not in the political unsophistication of voters the subordination of economic interests to spiritual ones or the ineptitude of secular and leftist politicians but in organizational and social factors that shape the opportunities of parties in authoritarian and democratizing systems to reach potential voters Tracing the performance of Islamists and their rivals in Egyptian elections over the course of almost forty years this book not only explains why Islamists win elections but illuminates the possibilities for the emergence in Egypt of the kind of political pluralism that is at the heart

of what we expect from democracy *Party-System Collapse* Jason Seawright,2012-10-24 Most party systems are relatively stable over time Yet in the 1980s and 1990s established party systems in Peru and Venezuela broke down leading to the elections of outsider Alberto Fujimori and anti party populist Hugo Chavez Focusing on these two cases this book explores the causes of systemic collapse To date scholars have pointed to economic crises the rise of the informal economy and the charisma and political brilliance of Fujimori and Chavez to explain the changes in Peru and Venezuela This book uses economic data surveys and experiments to show that these explanations are incomplete Political scientist Jason Seawright argues that party system collapse is motivated fundamentally by voter anger at the traditional political parties which is produced by corruption scandals and failures of representation Integrating economic organizational and individual considerations Seawright provides a new explanation and compelling new evidence to present a fuller picture of voters decisions and actions in bringing about party system collapse and the rise of important outsider political leaders in South America **Whitaker's Book List** ,1989 **Political Parties in the Arab World** Francesco Cavatorta,2018-06-30 Examines and critiques Derrida s work in relation to gender sexuality and film **The Idea of Communism** Costas Douzinas,Slavoj Žižek,2010 The Idea of Communism was a landmark conference held in London during 2009 This book brings together the conference discussions on the philosophical and political importance of the communist idea highlighting its continuing significance and the need to reconfigure the concept within a world marked by havoc and crisis **The Fight for Freedom** University of California, Los Angeles. University Extension,1943 **Alternative Press Index** ,2005 **The Radical Humanist** Manabendra Nath Roy,2003 Guide to the American Left ,1997 **Tribune** ,1977 Index India ,1969 **Time** ,1981-04 *U.S.A.* ,1958
