**United Mine Workers of America**

## **Decline Of Organized Labor In The United States:**

**The Decline of Organized Labor in the United States** Michael Goldfield, 1989-05-15 Goldfield provides a statistical and historical examination of the erosion of unionization in the private sector Based on National Labor Relations Board data which serve as an accurate measure of union growth in the private sector he argues that standard explanations for union decline structural industrial occupational demographic and geographic changes are insupportable or erroneous He makes a compelling case that the decline is due to changing class relationships determined corporate anti unionism lack of realism on the part of the unions and a public view of unions as too powerful and untrustworthy Goldfield maintains that by understanding the decline of U S labor unions it is possible to understand the conditions necessary for their rebirth and resurgence ISBN 0 226 30102 8 27 50      Unions in Crisis? Michael Schiavone, 2007-12-30 Unionism in the United States was quite successful during and after World War II especially during the golden years of American capitalism 1947 73 as workers wages increased quite dramatically in a number of industries For example average hourly earnings for workers in meatpacking rose 114% between 1950 and 1965 those in steel 102% in rubber tires by 96% and in manufacturing 81% At the same time as union members wages were increasing union membership was declining Yet the American Federation of Labor Congress of Industrial Organizations AFL CIO argued that organizing new members was not a priority By concentrating on the existing membership and bread and butter issues and not organizing new members unionism could not deal with the attack on the social contract by employers and the government beginning in the United States in the late 1970s However while many people are claiming that organized labor is a dinosaur Schiavone argues that a strong union movement is needed now more than ever Unionism in the United States was quite successful during and after World War II especially during the golden years of American capitalism 1947 73 as workers wages increased quite dramatically in a number of industries For example average hourly earnings for workers in meatpacking rose 114% between 1950 and 1965 those in steel 102% in rubber tires by 96% and in manufacturing 81% At the same time as union members wages were increasing union membership was declining Yet the American Federation of Labor Congress of Industrial Organizations AFL CIO argued that organizing new members was not a priority By concentrating on the existing membership and bread and butter issues and not organizing new members unionism could not deal with the attack on the social contract by employers and the government beginning in the United States in the late 1970s Following that attack there was a significant decline in U S workers wages and conditions in real terms and there was a corresponding decline in union membership However while many people are claiming that organized labor is a dinosaur Schiavone argues that a strong union movement is now needed more than ever If unions make major changes as outlined in this book the U S labor movement may regain some of its strength By fighting for workplace such as higher wages and non workplace issues such as the fight for adequate childcare or against racism unions in America and Canada that embraced what Schiavone calls social justice unionism have improved

society for all On purely bread and butter issues these unions have achieved better collective bargaining agreements than their rival mainstream unions as well as organizing more new workers per capita How much strength organized labor will regain by embracing social justice unionism is uncertain but it is a beginning

**The History and Problems of Organized Labor** Frank Tracy Carlton, 1911

**The Twilight of the Old Unionism** Leo Troy, 2004 This controversial but well documented and deftly argued study analyzes the present and future prospects for organized labor in the private sector The book takes the decline and ultimate disappearance of labor unions not just in the United States but elsewhere in the developed world as fact Beginning with this premise Troy goes on to elaborate on the extent and reasons for the decline by addressing four vital questions 1 Can private sector unions ever make a comeback 2 If organized labor cannot recover what are the consequences for both unionized and non unionized workers for the economy and for the unionism itself 3 What is the experience of other countries particularly Canada whose industrial relations parallels that of the United States 4 And finally what explains the international decline and change in the character of unions especially in places like the United Kingdom and Germany

Labor in the United States Sanford Cohen, 1966 Approach through historical events to an understanding of work problems in the USA covers human resources labour force the occupational structure trade unionism collective bargaining labour relations strikes wage policy social protection and social security unemployment employment policy etc Statistical tables

Organized Labor in American History Frank Tracy Carlton, 1920

Encyclopedia of U.S. Labor and Working-Class History Eric Arnesen, 2006-11-16 A RUSA 2007 Outstanding Reference Title The Encyclopedia of US Labor and Working Class History provides sweeping coverage of US labor history Containing over 650 entries the Encyclopedia encompasses labor history from the colonial era to the present Articles focus on states regions periods economic sectors and occupations race relations ethnicity and religion concepts and developments in labor economics environmentalism globalization legal history trade unions strikes organizations individuals management relations and government agencies and commissions Articles cover such issues as immigration and migratory labor women and labor labor in every war effort slavery and the slave trade union resistance by corporations such as Wal Mart and the history of cronyism and corruption and the mafia within elements of labor history Labor history is also considered in its representation in film music literature and education Important articles cover the perception of working class culture such as the surge in sympathy for the working class following September 11 2001 Written as an objective social history the Encyclopedia encapsulates the rise and decline and continuous change of US labor history into the twenty first century

What Unions No Longer Do Jake Rosenfeld, 2014-02-10 From workers wages to presidential elections labor unions once exerted tremendous clout in American life In the immediate post World War II era one in three workers belonged to a union The fraction now is close to one in five and just one in ten in the private sector The only thing big about Big Labor today is the scope of its problems While many studies have explained the causes of this decline What Unions No Longer Do shows the broad repercussions of labor s

collapse for the American economy and polity Organized labor was not just a minor player during the middle decades of the twentieth century Jake Rosenfeld asserts For generations it was the core institution fighting for economic and political equality in the United States Unions leveraged their bargaining power to deliver benefits to workers while shaping cultural understandings of fairness in the workplace What Unions No Longer Do details the consequences of labor's decline including poorer working conditions less economic assimilation for immigrants and wage stagnation among African Americans In short unions are no longer instrumental in combating inequality in our economy and our politics resulting in a sharp decline in the prospects of American workers and their families US Labor in Trouble and Transition Kim Moody, 2007 The finest historian of the contemporary labor movement uncovers the secrets of its collapse and revival U S Labor in Trouble and Transition tells the story of union decline in America and of the split in the labor movement it led to following the dismal tale of union mergers and management partnerships that accompanied the retreat from militancy since the 1980s Looking to the future Moody shows how the rise of immigrant labor and its efforts at self organization can re energize the unions from below U S Labor in Trouble and Transition breaks new ground in the on going debate within the U S labor movement

*Worker Centers* Janice Ruth Fine, 2006 As national policy is debated a locally based grassroots movement is taking the initiative to assist millions of immigrants in the American workforce facing poor pay bad working conditions and few prospects to advance to better jobs Fine takes a comprehensive look at the rising phenomenon of worker centers fast growing institutions that improve the lives of immigrant workers through service advocacy and organizing from publisher information **The Unions and the Democrats** Taylor E. Dark, 1999 Although labor unions have faced a decline in membership in recent decades they have not necessarily lost their political clout This book illuminates the inner dynamics of labor's relationship to the American political system over the past generation It examines organized labor from the Johnson administration to the end of Clinton's first term showing that labor's alliance with the Democratic Party has endured despite changes in the economy and the revival of conservatism Drawing on extensive interviews with union leaders and lobbyists Taylor E Dark provides a historical perspective often lacking in studies of union political involvement He compares the relationship of presidents Johnson Carter and Clinton with labor and analyzes cases of union involvement in legislative lobbying executive decision making and both congressional and presidential elections *A History of the American People Volume II* Harry J. Carman and Harold C. Syrett, 1952 The Potential Economic Growth in the United States James W. Knowles, 1960 *Organized Labor* John Mitchell, 1903 **History of Socialism in the United States** Morris Hillquit, 1910

**Proceedings of The...consecutive Constitutional Convention of the United Mine Workers of America** United Mine Workers of America, 1911 **The Tailor**, 1903 **Parties and Elections in Corporate America** Howard L. Reiter, 1993 **The Labor Movement in the United States** John J. Flagler, 1970 Traces the history of organized labor in the United States and discusses its influence on the society **Brotherhood of Locomotive Firemen and Enginemen's**
