Nationalism and Global Solidarities James Goodman,Paul James,2006-11-29 Even in the face of neoliberal globalization nationalism remains a significant political force The leading contributors to this new volume explore the extent to which nationalism can be a foundation for alternative solidarities Against the axiom that with globalization all that is solid melts into air this anthology debates the extent to which different forms of solidarity remain viable from the solidarities of local political groups to the solidarities of nationalism internationalism and alternative globalisms Organized into three sections the book addresses the relationship between the contemporary formations of nationalism globalism and solidarity movements Part 1 offers a framework for understanding globalization and discusses the effect of globality on nationalism Part 2 addresses the logics of nationalisms in globalizing contexts respectively liberal nationalism left nationalism post colonial nationalism and revivals of nationalism Part 3 addresses issues of solidarity and integration in a world of nationalism and globalism asking how differing forms of connectivity may be emerging disrupting prevailing oppositions and relations focusing on social movements and solidarity Offering the first detailed study of the relationship between globalization and nationalism *Nationalism and Global Solidarities* will be of strong interest to students and scholars of politics sociology and international political economy *Florida State University Law Review* Florida State University. unified society by recovering this lost history and by giving immigrants more but at the same time asking more of them A timely panoramic chronicle of immigration and citizenship in the United States Americans in Waiting offers new ideas and a fresh perspective on current debates **Making Americans, Remaking America** Louis DeSipio, Rodolfo O. de la Garza, 1998-03-20 In a historical overview of U S immigration the authors examine legislative and legal battles being waged over immigration policy whether minority issues can be resolved by developing a more explicit settlement policy and whether the contract between state and immigrant would change if we fully understood the immigrant s legitimate needs

Transforming Politics, Transforming America Taeku Lee, S. Karthick Ramakrishnan, Ricardo Ramírez, 2012-10-05 Over the past four decades the foreign born population in the United States has nearly tripled from about 10 million in 1965 to more than 30 million today This wave of new Americans comes in disproportionately large numbers from Latin America and Asia a pattern that is likely to continue in this century In Transforming Politics Transforming America editors Taeku Lee S Karthick Ramakrishnan and Ricardo Ram rez bring together the newest work of prominent scholars in the field of immigrant political incorporation to provide the first comprehensive look at the political behavior of immigrants Focusing on the period from 1965 to the year 2020 this volume tackles the fundamental yet relatively neglected questions What is the meaning of citizenship and what is its political relevance How are immigrants changing our notions of racial and ethnic categorization How is immigration transforming our understanding of mobilization participation and political assimilation With an emphasis on research that brings innovative theory quantitative methods and systematic data to bear on such questions this volume presents a provocative evidence based examination of the consequences that these demographic changes might have for the contemporary politics of the United States as well as for the concerns categories and conceptual frameworks we use to study race relations and ethnic politics Contributors Bruce Cain University of California Berkeley Grace Cho University of Michigan Jack Citrin University of California Berkeley Louis DeSipio University of California Irvine Brendan Doherty University of California Berkeley Lisa Garc a Bedolla University of California Irvine Zoltan Hajnal University of California San Diego Jennifer Holdaway Social Science Research Council Jane Junn Rutgers University Philip Kasinitz City University of New York Taeku Lee University of California Berkeley John Mollenkopf City University of New York Tatishe Mavovosi Nteta University of California Berkeley Kathryn Pearson University of Minnesota Kenneth Prewitt Columbia University S Karthick Ramakrishnan University of California Riverside Ricardo Ram rez University of Southern California Mary Waters Harvard University Cara Wong University of Michigan Janelle Wong University of Southern California **Debating American Identity** Linda C. Noel, 2014-02-27 In the early 1900s Teddy Roosevelt New Mexico governors Miguel Antonio Otero and Octaviano Larrazolo and Arizona legislator Carl Hayden along with the voices of less well known American women and men promoted very different views on what being an American meant Their writings and speeches contributed to definitions of American national identity during a tumultuous and dynamic era At stake in these heated debates was the very meaning of

what constituted an American the political boundaries for the United States and the legitimacy of cultural diversity in modern America In *Debating American Identity* Linda C Noel examines several nation defining events the proposed statehood of Arizona and New Mexico the creation of a temporary worker program during the First World War immigration restriction in the 1920s and the repatriation of immigrants in the early 1930s Noel uncovers the differing ways in which Americans argued about how newcomers could fit within the nation state in terms of assimilation pluralism or marginalization and the significance of class status race and culture in determining American identity Noel shows not only how the definition of American was contested but also how the economic and political power of people of Mexican descent their desire to incorporate as Americans or not and the demand for their territory or labor by other Americans played an important part in shaping decisions about statehood and national immigration policies *Debating American Identity* skillfully shows how early twentieth century debates over statehood influenced later ones concerning immigration in doing so it resonates with current discussions resulting in a well timed look at twentieth century citizenship *A Nation by Design* Aristide R. Zolberg,2008-12-15 Zolberg explores American immigration policy as a tool of nation building from the colonial period to the present His book shows how America has struggled to shape the immigration process to construct the kind of population it desires
