Dedalus Of Surrealism The Identity Of Things:

The Dedalus Book of Surrealism: The identity of things Michael Richardson,1993 Collection of surrealist stories by authors from seventeen different countries **Dedalus Book of Surrealism** Michael Richardson,1995-04-01 **The Dedalus Book of Surrealism: The myth of the world** Michael Richardson,1993 Collection of surrealist stories by authors from seventeen different countries *Routledge Encyclopedia of Narrative Theory* David Herman,Manfred Jahn,Marie-Laure Ryan,2010-06-10 The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource "Appropriated Photographs in French Surrealist Periodicals, 1924?939 " Linda Steer,2017-07-05 The first monograph to analyze the Surrealist gesture of photographic appropriation this study examines found photographs in three French Surrealist reviews published in the 1920s and 1930s La R lution surr iste edited by Andr reton Documents edited by Georges Bataille and Minotaure edited by Breton and others The book asks general questions about the production and deployment of meaning through photographs but addresses more specifically the construction of a Surrealist practice of photography through the gesture of borrowing and re contextualization and reveals something crucial both about Surrealist strategies and about the way photographs operate The book is structured around four case studies including scientific photographs of an hysteric in Charcot s clinic at the Salp i hospital positioned as poetry rather than pathology and one of the first crime scene photographs depicting Jack the Ripper s last victim radically transformed into a work of art Linda Steer traces the trajectory of the found photographs from their first location to their location in a Surrealist periodical Her study shows that the act of removal and re framing highlights the instability and mutability of photographic meaning an instability and mutability that has consequences for our understanding both of photography and of Surrealism in the 1920s and 1930s *The A to Z of Fantasy Literature* Brian Stableford,2009-08-13 Once upon a time all literature was fantasy set in a mythical past when magic existed animals talked and the gods took an active hand in earthly affairs As the mythical past was displaced in Western estimation by the historical past and novelists became increasingly preoccupied with the present fantasy was temporarily marginalized until the late 20th century when it enjoyed a spectacular resurgence in every stratum of the literary marketplace Stableford provides an invaluable guide to this sequence of events and to the current state of the field The chronology tracks the evolution of fantasy from the origins of literature to the 21st century The introduction explains the nature of the impulses creating and shaping fantasy literature the problems of its definition and the reasons for its changing historical fortunes The dictionary includes

cross referenced entries on more than 700 authors ranging across the entire historical spectrum while more than 200 other entries describe the fantasy subgenres key images in fantasy literature technical terms used in fantasy criticism and the intimately convoluted relationship between literary fantasies scholarly fantasies and lifestyle fantasies The book concludes with an extensive bibliography that ranges from general textbooks and specialized accounts of the history and scholarship of fantasy literature through bibliographies and accounts of the fantasy literature of different nations to individual author studies and useful websites

The Postmodern Short Story Farhat Iftekharrudin, Joseph Boyden, Mary Rohrberger, Jaie Claudet, 2003-12-30 Short stories are usually defined in terms of characteristics of modernism in which the story begins in the middle develops according to a truncated plot and ends with an epiphany This approach tends to ignore postmodernism a movement often characterized by a negation of objective reality where plots are seemingly abandoned surfaces are extraordinary and symbols turn inward on themselves This book examines postmodern forms and characteristic themes by analyzing a group of short stories that make use of postmodern narrative strategies including nonfictional fiction gender profiling and death as an image The volume begins with a discussion of the blurred lines between fiction and nonfiction in the short story and imaginative personal essay It then looks at the role of women in works by such authors as Sandra Cisneros Leslie Marmon Silko Joyce Carol Oates and Lorrie Moore This is followed by a section of chapters on postmodern masculinity and short fiction The next section focuses on death as an image and theme in works by Richard Ford Richard Brautigan and James Joyce The final set of chapters considers postmodern short fiction from South Africa and Canada

The Sources of Surrealism Neil

Matheson, 2006 Surrealism is a particularly complex international movement embracing both the literary and the visual arts while lacking any single visual or literary style and this together with its long existence has served to generate a very substantial body of writings poetry novels essays theoretical writings manifestoes and other documents which might be considered as fundamental to any proper understanding of the movement *The Sources of Surrealism* is a comprehensive sourcebook documenting the origins and development of Surrealism internationally through a collection of 234 original documents The texts have been selected from across the whole range of Surrealist writing as well as including influential predecessors like Rimbaud and Lautreamont and contemporaries such as Raymond Roussel and Alfred Jarry Texts are published in English throughout with new translations provided for previously untranslated material The book addresses for the first time the neglected area of the relationship between Surrealism and popular culture including Surrealism's engagement with cinema and attempts to address the increased critical interest in what in the past were more neglected figures such as Michel Leiris and Georges Bataille Particular emphasis is given to the earlier documents and influences upon the Surrealist movement as well as to the period of its internationalism during the 1930s and the texts cover Surrealism in Britain and Belgium as well as France This fascinating collection presents what was most vital about this complex and often contradictory movement and serves as an essential reference book for scholars as well as stimulating reading for all those with a general interest in the subject
