21st Century Sociology: A Reference Handbook Clifton D. Bryant,Dennis L. Peck,2007 Publisher Description

Sociology and the Race Problem James B. McKee,1993 Tracing developments in the sociology of race relations from the 1920s to the 1960s McKee maintains that sociologists assumed the United States would move unimpeded toward modernization and assimilation aided by industrialization and urbanization The fatal flaw in their perspective was the notion that blacks were culturally inferior backward and pre modern a people who had lost their own culture and couldn t grasp that of their new society Designed to detail a failure the author says is widely acknowledged but little examined this book will be of interest to both specialists and general readers Masterful McKee transports the reader back to the intellectual world in which the early sociologists worked and does not simply treat them as evil racists His approach is informed by the sociology of knowledge Lewis M Killian author of *The Impossible Revolution Phase 2 Black Power and the American Dream* **Race**

Against Time Jack E. Davis,2004-10-01 While many studies of race relations have focused on the black experience *Race against Time* strives to unravel the emotional and cultural foundations of race in the white mind Jack E Davis combed primary documents in Natchez Mississippi and absorbed the town s oral history to understand white racial attitudes there over the past seven decades a period rich in social change strife and reconciliation What he found in this community that cultivates for profit a romantic view of the Old South challenges conventional assumptions about racial prejudice Davis engagingly and effortlessly weaves between nineteenth and twentieth centuries white observations and black to describe patterns of social interaction in Natchez in the workplace education politics religion and daily life It was not he discovers false notions of biological differences reinforced by class and economic conflict that lay at the heart of the town s racial divide but rather the perception of a black white cultural divergence in values in education work and family White culture was deemed superior a presumption manifested through a hierarchy of old family elite and other white citizens Since 1930 Natchez has developed a major tourist industry downsized sharecropping expanded its manufacturing sector and participated in the struggles for civil rights school desegregation and black political empowerment Yet the collective white perception of a mythic past has continued reinforced through the sum of Natchez s public history social memory school

textbooks breathtaking antebellum mansions and world famous Pilgrimage In Race against Time Davis sensitively lays bare the need for shared control of the town s history and the acknowledgment of intercultural dependence to effect true racial equality Building upon the 1941 classic Deep South A Social Anthropological Study of Caste and Class Davis brings tremendous passion and insight to the demanding issue of race as he fathoms the contours of Natchez s distinctive racial dynamics in recent decades **Report** Russell Sage Foundation.
