Private Lectures on Perfect Men, Women and Children, in Happy Families Orson Squire Fowler, 1880 *The Cumulative Book Index*, 1992 A world list of books in the English language **Quarterly Journal of Studies on Alcohol**, 1975 Includes sections Activities of the Research Council on Problems of Alcohol and Current literature Happiness in Marriage Ashok Gulla, 2008-11-01 The book HAPPINESS IN MARRIAGE by ASHOK GULLA deliberates on how to lead a happy and contented married life by bringing physical and emotional closeness improvement of inner condition imbibing feeling of love and concern removal of negative feelings enhancing attractiveness towards each other and focussing on higher goals in life To be happy in marriage is not only a personal issue but from a broader perspective it affects the well being of societies Most married couples are not fully informed about emotional psychological and physical aspirations of each other Enhancing pleasure through sex is not sufficient if the couple does not attain emotional closeness The efforts we make to develop ourselves in profession are lacking on our part when it comes to nurturing our married relationship The essence of one s happiness inner calmness and growth is related to one s capability to love others Our ego intolerance and selfish tendencies affect this inner growth Man and woman get married not fully informed about each other expectations are too high and we do not work properly to make it a success Some people pretend to be happy married couple while talking to others but in actuality they have no deep love and affection We always believe that everything in marriage will happen to our liking and blame other partner when it turns contrary to our expectations Our journey of life is much influenced by the quality of relationship with our spouse Whatever we may achieve professionally that will not help to compensate for troubles emanating from our physical and emotional relationship with our spouse The pressure of modern life constraints of meeting professional goals and getting material benefits requires both husband and wife to work hard leaving little time to develop

understanding of emotional needs We come together as strangers to get tied in the wedlock and in most cases continue to remain not attached emotionally We do not make enough efforts to understand what troubles our spouse As we go through the process of marriage we tend to err in our understanding and meeting aspirations of our spouse This spoils the relationship People often get angry with their partner when they feel to be giving more in the relationship than what the other person is offering in return We have to keep communication channels open with the spouse to listen to all the bad things he she feels about us so that these get clarified at regular moments This may help us to adjust our understanding and behavior suitably At times when a person is of a dominating nature his or her spouse feels hurt and increasingly entrapped in the role of a weak and dependent partner The feeling of hurt makes a person dysfunctional and not able to perform to the best of his or her capability We may not be fully aware the agony and pain which certain harsh words or dominating nature causes to our spouse A happy marriage depends on better communication and understanding of each other Some people have tendency to find fault with the way other person talks or the manner in which some task is accomplished As husband and wife we have to perform various tasks together to shoulder responsibility towards maintenance of home care of children meeting financial needs of the family or fulfilling responsibility towards other members of the family As couple we will continue to have differences on various issues and it may lead to anger or arguments at times We have to be careful not to get into the habit of finding fault at each and every time There is a better and sophisticated way of communicating our concerns without finding fault with our spouse We have to imbibe certain qualities that make us attracted to our spouse Life should look incomplete without our spouse The true love requires that it ought not to be conditional Loving our life partner should flow

Fowers, 2000-09-18 According to psychologist Blaine Fowers the myth of marital happiness that good communication emotional gratification and intimacy result in a healthy relationship has made marriages more fragile than ever before and we must let it go Does this mean that we should give up on love satisfaction intimacy emotional support good communication and good sex in marriage That marriage must be continued solely on the basis of grim commitment That no one should divorce Not at all Instead Dr Fowers shows how we can re envision marriage as a wonderful opportunity to practice the virtues of friendship loyalty generosity and justice in the shared pursuit of our deepest ideals Marriage and the Family, an Integrated Approach for Catholics Alphonse Henry Clemens, 1957
