Defeat In Victory:

Defeat Into Victory William Slim, 2012-12-13 Field Marshal William Slim stands alongside Montgomery as the outstanding British field commander of World War II. *Defeat Into Victory* is his classic account of the Burma campaign, a story of retreat, attrition, and final hard-fought victory over the Japanese. Told by a commander always at the centre of events, this is a narrative which captures both the high drama and the harsh reality of war. *Defeat Into Victory*, 1958 *Defeat Into Victory* William Slim, 1956 **Defeat Into Victory** William Slim (1st viscount), 1970 Defeat Into Victory William J. Victorious Living E. Stanley Jones, 2014-10-21 E Stanley Jones wrote *Victorious Living* in 1936 to respond to inquirers who had come to him morally and spiritually defeated They were inwardly beaten thus outwardly ineffective The book responds with individual and social emphases and goes step by step as if on a ladder to work through the pressing questions of the inner life and how it extends outward How do we achieve a life evidencing the peace that passes understanding even in ourselves let alone passing it on What makes the difference between ordinary living and extraordinary victorious living How can we build a new inner strength that shines through in our outward character and relationships Our own efforts to rise above are ineffective but by applying the power of God's Word we can close the gap between our reality and our beliefs Each daily reading offers essential truths and eternal principles keys to victorious living in the circumstances we encounter every day Now this vibrant work is making a long deserved comeback with a new foreword by Leonard Sweet

Latin America's Pendular Politics Olivier Dabène, 2023-03-22 This book explores pendular politics in Latin America focusing on electoral cycles with a pattern of similar results Latin America has been neoliberal in the 1990s leftist during the 2000s then conservative in 2016 2018 and progressist again since 2018 The reference to a right left right left sequence over a period of thirty years undoubtedly accounts for a singular pendulum pattern yet proves to be excessively simplistic The right left dichotomy hides fractures and nuances that characterize each political camp This book seeks to explain why some elections result in alternations and others do not Based on an innovative theoretical framework and a unique collection of case studies the book offers a rich understanding of Latin America's contemporary political evolutions Voters are getting accustomed to punishing incumbents for not delivering in time of crises resulting in frequent alternations It might be good for democracy not so much for governability
