 Herron,2025-09-30 From two personal finance experts a hopeful and even fun roadmap Ken Dychtwald author of The Power
 Years to plan for your retirement tailored to the specific financial circumstances of Gen X The oldest members of Gen X are
 less than a decade from retirement age but many of the sixty four million Americans born between 1965 and 1980 are not
 sufficiently prepared While it could be easy to label Gen Xers as slackers there are several underlying economic issues
 making it harder for this cohort to save for retirement Company funded pensions vanished just as Gen X started working 401
 k s were less widespread for much of their early earning years and Gen X s earnings have been disrupted by multiple
 financial crises during their work lifetimes Retirement Bites is a retirement playbook that specifically targets this overlooked
 generation Personal finance experts Kerry Hannon and Janna Herron lay out a blueprint for Gen Xers to take control of their
 financial future from understanding investment options to boosting financial security to creating a retirement income stream
 and more The goal is to embrace not just saving for retirement but saving for life *Information Tectonics* Mark I.
 Wilson,Kenneth E. Corey,2000-06-15 Information Tectonics spatial organization in the electronic age The rapid development
 and diffusion of information technologies telecommunications computers the Internet is profoundly changing the character
 and structure of interaction at the local national and international level Information technology is usually viewed as a
 technical issue with analysis focusing on hardware software and engineering concerns for efficient management and
 operation Lost from much of the debate and discussion over information technology is the role of geography and the spatial
 context of information technology To further understanding and knowledge of the spatial character and geographic impact of
 information technology this volume addresses three key aspects of the phenomenon Conceptualising electronic space and
 placing it into existing and developing theories of spatial and social interaction What does electronic interaction mean for our
 theoretical and perceptual understanding of place and distance Exploration of the geographic dimensions of electronic
