**Surveillance Education**  
Nolan Higdon, Allison Butler, 2024-08-02 Surveillance Education explores the pervasive use of digital surveillance technologies in schools and assesses its pernicious effects on students Recognizing that the use of digital technologies will persist the authors instead offer practical ways to ameliorate their impact In our era of surveillance capitalism digital media technologies are ever more intertwined into the educational process Schools are presented with digital technologies as tools of convenience for gathering and grading student work as tools of support to foster a more equitable learning environment and as tools of safety for predicting or preventing violence or monitoring mental emotional and physical health Despite a dearth of evidence to confirm their effectiveness digital data collection and tracking is often presented as a way to improve educational outcomes and safety This book challenges these fallacious assumptions and argues that the use of digital media technologies has caused great harm to students by subjecting them to oppressive levels of surveillance impinging upon their right to privacy and harvesting their personal data on behalf of Big Tech In doing so the authors draw upon interviews from K 12 and higher education students teachers and staff civil rights and technology lawyers and educational technological programmers The authors also provide practical guidance for teachers administrators students and their families seeking to identify and combat surveillance in education This urgent eye opening book will be of interest to students and educators with interests in critical media literacy and pedagogy and the sociology of technology and education

*The Beginner's Guide for Selling on TikTok* K Stello, 2023-08-26 TikTok is not the same as your normal social networking site while having many similarities to popular social media sites like Twitter and Instagram. The algorithm is very unique to other platforms. TikTok uses a unique algorithm to guarantee that every video has an equal chance of becoming popular regardless of how well known the content creator is. This opens up space for quick expansion and growth of social media presences, rapid growth, and practically endless marketing experimentation. What shows up in a user's feed is determined by an algorithm used by TikTok. Every video has a chance of going viral thanks to the intriguing manner that its discovery algorithm works. To attract interested audiences who are ready to buy your products, you can quickly and easily create a TikTok video promoting a product. The main distinction between TikTok and other social media platforms, particularly Facebook and Instagram, is that the homepages of the latter two are primarily made up of users and channels you already follow. You might be wondering why TikTok has been used to market things. TikTok operates in the opposite manner, giving new creator videos priority. This book would be teaching you tips and tricks to run a profitable TikTok business. What you will learn in this book: Introduction to Using TikTok for Business, Steps to Follow to help focus on setting up your strategy before using TikTok for Business, Suggestions for creating content for TikTok and success examples, TikTok Analytics, How to gauge your Brand effectiveness, Successful techniques for becoming viral in the TikTok marketing strategy, Benefits of TikTok Marketing for businesses.
