**Digital Services and Information Intelligence** Hongxiu Li, Matti Mäntymäki, Xianfeng Zhang, 2014-11-22 This book constitutes the refereed conference proceedings of the 13th IFIP WG 6.11 Conference on e Business, e Services and e Society I3E 2014 held in Sanya, China, in November 2014. The 32 revised full papers presented were carefully reviewed and selected from 42 submissions. They are organized in the following topical sections: digital services; digital society; and digital business.

**Transmedia Narratives for Cultural Heritage** Nicole Basaraba, 2022-04-21 Transmedia Narratives for Cultural Heritage focuses on theoretical approaches to the analysis and creative practice of developing non-fiction digital transmedia narratives in the rapidly growing cultural heritage sector. This book applies a media-focused transdisciplinary approach to understand the conventions of emerging digital narrative genres. Considering digital media's impact on narrative creation and reception, the approach, namely remixed transmedia, can aid practitioners in creating strategic non-fiction narratives for cultural heritage. These creations also need to be evaluated, and a digital media-focused ludonarrative toolkit allows for the critical analysis of the composition and public participation in interactive digital narratives. This toolkit is applied and exemplified in genres including virtual museums, serious games, and interactive documentaries. The book also includes a seven-phase theoretical framework that can assist future creators and project managers of non-fiction transmedia mothership narratives and a methodology based on big data analysis for how to invent new cultural heritage narratives through bottom-up remixing that allows for public inclusion. Two transnational case studies on the 11 UNESCO World Heritage Australian Convict Sites and the Irish National Famine Way demonstrate the seven-phase framework's applicability. As many scholars across disciplines are increasingly creating digital narratives on historical topics for public consumption in various forms, the theoretical foundations and practical project management framework will be useful for scholars and project teams in the domains of transmedia studies, interactive narratives, cultural heritage media studies, comparative literature, and journalism.
