Barriers and Social Considerations for AI Adoption in Supply Chain Management Dr. Johannes Hangl,2025-01-14 Doctoral  
 Thesis Dissertation from the year 2025 in the subject Business economics Supply Production Logistics grade magna cum  
 laude Mendel University Business and Economics language English abstract The dissertation explores the integration of  
 artificial intelligence AI with supply chain management SCM highlighting both opportunities and challenges It begins by  
 discussing the current state of AI in SCM identifying research gaps and explaining foundational concepts like SCM  
 complexities the Supply Chain Operational Reference Model SCOR and AI algorithms in SCM Using a structured  
 methodology the study includes a detailed literature review survey design and expert interviews Key findings reveal that AI  
 adoption in SCM is driven by increased efficiency improved decision making and cost reduction However barriers such as  
 data quality issues resistance to change and lack of understanding and trust in AI are significant To overcome these barriers  
 companies should involve all stakeholders focus on data quality and integrate AI solutions with existing processes The  
 research emphasizes avoiding common mistakes in AI implementation such as neglecting explainability and transparency  
 underestimating stakeholder involvement and rushing into large scale implementation without pilot projects It concludes  
 with actionable guidelines for businesses on developing purchasing and implementing AI solutions in SCM These guidelines  
 include prioritizing data quality enhancing technical expertise focusing on tangible business benefits and upholding ethical  
 standards The dissertation also discusses the implications for academia and industry acknowledging limitations and  
 suggesting future research directions It highlights the potential of AI to revolutionize areas like demand forecasting  
 inventory optimization and transportation through advanced predictive analytics and integration with technologies like IoT  
 blockchain and robotics The study underscores the importance of ethical AI implementation transparency and human AI
