Arabnia, Ken Ferens, Leonidas Deligiannidis, 2025-03-29 This book constitutes the proceedings of the 8th International Conference on Applied Cognitive Computing ACC 2024 and the 26th International Conference on Artificial Intelligence ICAI 2024 held as part of the 2024 World Congress in Computer Science Computer Engineering and Applied Computing in Las Vegas USA during July 22 to July 25 2024 This proceedings book includes 9 papers from ACC 2024 and 31 papers from ICAI 2024 They have been organized in topical sections as follows Applied cognitive computing and artificial intelligence artificial intelligence and applications artificial intelligence reinforcement learning and knowledge engineering and artificial intelligence optimization methods and machine learning **American Manufacturer and Trade of the West** , 1912 *Proceedings of the United States Naval Institute* United States Naval Institute, 1917 **Biopharmaceutical Ecosystems** David R. Williams, 2025-10-01 The ecosystem perspective on organizations and economic settings is relatively new It expands on work that looks at bio clusters concentrating on the relationship between human and financial capital The perspective takes an expansive view of biopharmaceuticals in relation to stakeholders and the social political and economic landscape including other life science companies academia non profits government entities and health systems The biotechnology and pharmaceutical industries have been merging for some time with biotechnology often portrayed as a disruptive innovation to the pharmaceutical industry A fuller description of this activity put into the greater context of the ecosystem perspective is warranted Biopharmaceutical Ecosystems A Comparative Study of U S and European Systems puts forward a picture of biopharmaceutical ecosystems in the USA and Europe It examines and expands current thinking on the development of the ecosystem perspective on biopharmaceuticals The title considers multiple locations with countries in the top 15 of biopharmaceutical exporters selected It pays particular attention to shifts in the political and economic landscape and how such changes affect ecosystems The underlying aim of biopharmaceutical ecosystems is to further the development of new drugs reduce time to market and lower costs In explaining ecosystems the book applies a quadruple helix model academia consumer society government and industry to each region and country in light of this triple aim Applies the ecosystem perspective to the biopharmaceutical industry looking at the relationship between human and financial capital Provides a one stop solution for stakeholders interested in comparing US and European biopharmaceutical ecosystems Examines ecosystems within countries in the top 15 of biopharmaceutical exporters worldwide Considers how each ecosystem furthers drug development reduces time to market and reduces costs Uses a rigorous methodology to understand how shifting political and economic factors affect biopharmaceutical ecosystems and their productivity in the US and Europe Algorithms of Armageddon George Galdorisi, Sam J Tangredi, 2024-03-12 It is unclear if U S policy makers and military leaders fully realize

that we have already been thrust into an artificial intelligence AI race with authoritarian powers Today the United States peer adversaries China and Russia have made clear their intentions to make major investments in AI and insert this technology into their military systems sensors and weapons Their goal is to gain an asymmetric advantage over the U S military The implications for our national security are many and complex Algorithms of Armageddon examines this most pressing security issue in a clear insightful delivery by two experts Authors George Galdorisi and Sam J Tangredi are national security professionals who deal with AI on a day to day basis in their work in both the technical and policy arenas Opening chapters explain the fundamentals of what constitutes big data machine learning and artificial intelligence They investigate the convergence of AI with other technologies and how these systems will interact with humans Critical to the issue is the manner by which AI is being developed and utilized by Russia and China The central chapters of the work address the weaponizing of AI through interaction with other technologies man machine teaming and autonomous weapons systems The authors cover in depth debates surrounding the AI genie out of the bottle controversy AI arms races and the resulting impact on policy and the laws of war Given that global powers are leading large scale development of AI it is likely that use of this technology will be global in extent Will AI enabled military weapons systems lead to full scale global war Can such a conflict be avoided The later chapters of the work explore these questions point to the possibility of humans failing to control military AI applications and conclude that the dangers for the United States are real Neither a protest against AI nor a speculative work on how AI could replace humans Algorithms of Armageddon provides a time critical understanding of why AI is being implemented through state weaponization the realities for the global power balance and more importantly U S national security Galdorisi and Tangredi propose a national dialogue that focuses on the need for U S military to have access to the latest AI enabled technology in order to provide security and prosperity to the American people
