Journalism Ethics Eric Wishart,2024-03-12

This concise and authoritative work offers the latest guidance on journalism ethics for students and media professionals and will help empower news consumers to make informed decisions about the trustworthiness of their sources of information. It offers advice on all aspects of journalism ethics including accuracy and seeking the truth, representation of women, LGBTQ coverage, climate change, mental health, use of images, conflict reporting, elections, and how to use artificial intelligence. The author brings a unique perspective and depth of knowledge to the complex challenges facing journalists and news consumers in this era of fake news, disinformation, and artificial intelligence. A clear, compelling, and comprehensive guide to how journalism at its best should work. Students and veterans alike could learn a great deal from it. Alan Rusbridger, editor in chief, The Guardian, 1995-2015. This book should be on every reporter's desk. Journalism ethics made easy and practical. Eric Wishart put his decades of experience as a reporter, editor in chief, and standards and ethics editor into these chapters on the many ethical dilemmas a journalist can come across. As a handbook and a quick reference work, the book is a true treasure trove. Margo Smit, president, The Organization of News Ombuds and Standards Editors. Eric Wishart brings a depth of experience and wisdom to this succinct, easy-to-read examination of the ethics and culture of journalism. As a refresher for professionals or a primer for students and information consumers who want to understand the principles of responsible, reliable journalism, this compact work is rich with valuable lessons and guidance. Fred Brown, ethics committee chair, Society of Professional Journalists.

The AI Con Emily M. Bender, Alex Hanna, 2025-05-13. A smart, incisive look at the technologies sold as artificial intelligence, the drawbacks and pitfalls of technology sold under this banner, and why it's crucial to recognize the many ways in which AI hype covers for a small set of power-hungry actors at work and in the world. Is artificial intelligence going to take over the world? Have big tech scientists created an artificial lifeform that can think on its own? Is it going to put authors, artists, and others out of business? Are we about to enter an age where computers are better than humans at everything? The answer to these questions, linguist Emily M. Bender and sociologist Alex Hanna make clear, is no, they wish. LOL, and definitely not. This kind of thinking is a symptom of a phenomenon known as AI hype. Hype looks and smells fishy. It twists words and helps the rich get richer by justifying data theft, motivating surveillance capitalism, and devaluing human creativity in order to replace meaningful work with jobs that treat people like machines. In *The AI Con*, Bender and Hanna offer a sharp, witty, and wide-ranging take-down of AI hype across its many forms. Bender and Hanna show you how to spot AI hype, how to deconstruct it, and how to expose the power grabs it aims to hide. Armed with these tools, you will be prepared to push back against AI hype at work, as a consumer in the marketplace, as a skeptical newsreader, and as a citizen holding policymakers to account. Together, Bender and Hanna expose AI hype for what it is: a mask for Big Tech's drive for profit with little concern for who it affects.

Co-Creating Future Social Services Andrzej Klimczuk, Hilla Dolev, Robin Miller, Carola Orrego, 2025-06-19. The European Social Services Conference (ESSC) <https://essc.eu.org> is the annual flagship event of the European Social Network (ESN) <https://www.esn.eu.org>, the leading network for public social services in Europe.

The ESSC is Europe's largest public social welfare policy and practice forum. The previous edition was attended by almost 700 delegates in Malmö, Sweden, in 2023. At the 32nd European Social Services Conference, Antwerp, Belgium, 26-28 June 2024, we will discuss how we can co-create community-based social services with a specific focus on three thematic strands: 1. Co-creating Cities, Social Inclusion; 2. Co-creating Responses to Manage the Future Workforce; and 3. Co-creating Digital Solutions for Social Inclusion. This Research Topic welcomes papers that will provide both theoretical insights and explorations as well as empirical evidence. Alongside learning from practice and responding to research findings, we also want to understand, challenge, and refine the theoretical lenses which underpin our assumptions about social inclusion and diversity in relation to social policy and social services. Potential issues include three thematic strands but are not limited to: 1. Co-creating Cities, Social Inclusion: community care models in cities, fighting residential exclusion, neighborhood approaches, managing childhood and youth transitions in areas such as early childcare or child protection, support planning for people with disabilities, aspects related to work and social participation, support programs for ageing populations, fighting loneliness, promoting community support, managing diversity in the community, co-production in local social services, planning, delivery, and evaluation, theories of community development, and how these relate to different forms of social capital. Recent theories and concepts in urban sociology, sociological practice, social policy, and social work, theoretical approaches to social problems, issues and challenges including those underlined by the United Nations Sustainable Development Goals. 2. Co-creating Responses to Manage the Future Workforce: workforce planning and management strategies, training for co-production with people using services and their families, registration and accreditation programs, programs to break down gender stereotypes, innovation and digital programs supporting social care and support such as digital tools or forecasting scenarios, theories of professional motivations, and how these can incentivize or deter person-centered and community care. 3. Co-creating Digital Solutions for Social Inclusion: prioritization of person-centered care and relationship-based practice, improvement of services, interaction, addressing digital readiness for practice, enhancing people's autonomy, increasing the data security, addressing ethical concerns and data protection needs, theoretical approaches to the digital divide, and social inclusion, theories of leadership, and how these translate to virtual contexts. We are looking forward to selecting manuscripts demonstrating a wide range of approaches and forward-thinking ideas to enhance personalization in social services. We want to provide an opportunity for presenters involved in the ESSC 2024 program, covering both scholars and practitioners from various sectors, to publish their papers. We also look forward to including articles from scholars and practitioners who did not present their work during our event. This Research Topic is fully open to practical and theoretical submissions that have not been included for presentation during the ESSC 2024. This Research Topic welcomes submissions of the following article types: Brief, Research Report, Community Case Study, Conceptual Analysis, General Commentary, Hypothesis, Theory, Methods, Mini Review, Opinion, Original Research, Perspective, Policy and Practice Reviews, Review, and Study Protocol.
