*AI and Digital Nomads Shaping Global Industrial Technology Transitions* Ordóñez de Pablos, Patricia, Zhang, Xi, Anshari, Muhammad, Almunawar, Mohammad Nabil, 2025-07-17. In the evolving landscape of global industry, artificial intelligence (AI) and the rise of digital nomadism emerge as transformative forces driving significant technological transitions. As businesses adopt AI to optimize operations, innovate products, and forecast market shifts, the traditional practices of work and production are redefined. The growth of remote work culture has removed employees from geographical constraints, allowing highly skilled professionals to contribute to industrial innovation from anywhere. Together, AI and digital nomadism reshape how and where work is done while accelerating global shifts in industrial technology, supply chains, and workforce dynamics. *AI and Digital Nomads Shaping Global Industrial Technology Transitions* explores the integration of intelligent technologies into global industries and organizations. It examines the emergence of digital nomads, labor mobility, and new technology policies associated with the growing remote workforce. This book covers topics such as e-commerce, global business, and labor markets and is a useful resource for business owners, computer engineers, academicians, researchers, and data scientists.

*The Pause* Julian Jason Haladyn, 2024-04-15. When COVID-19 spread across the globe, people experienced protection measures such as social distancing, self-isolation, and self-quarantine as a kind of shutting down or putting on hold of life. Many referred to this experience as a pause. Calling attention to the long history of grappling with pausing in writing on plagues and pandemics, Julian Haladyn explores the pause in its social, political, and personal manifestations over the extended pandemic. The schism between the virus and its prohibitions on human engagement with the world produced a crisis, Haladyn argues, in which for an extended time it was impossible to imagine a future. *The Pause* is a cultural inquiry into a moment when human life around the globe seemed to halt as well as the social symptoms that defined it. *The Pause* captures the experience of being inside the pandemic even as that experience continues to unfold. It regards our current situation not for what it may become in the future but rather as a moment of mass uncertainty and existential hesitation.
