

Company Update

September 2020

Harry Y. Cuevas

Thoughts from the CEO

"The world is changing rapidly. It seems like just yesterday we caught on that visuals work better than text, be it marketing, advertising, sharing information, interesting readers, whatever. But now it's about optimizing visuals for the right platforms. Robust responsive email design tools are slowly cropping up because people use different devices to check most their emails."

'IMAGINATE' Launch Update

Visual Flex's newest tool takes responsive design to a completely new level. Our intuitive, dynamic design features are unlike anything you've seen before. After extensive testing, our latest fixes are in and fully functional. We've ensured that with platform transitions, colour palettes can be changed too. This is a great way for a company to maintain an exciting brand personality. The Imagine tool's sensitivity map allows for controlling the type, speed and fluidity of each transition.

As Usual, Growth is Great

Visual Flex has seen another third quarter of sizable growth compared to its previous years. It seems like there's no stopping this train. Of course, it's all thanks to our loyal consumers. It's fair to say that Visual Flex has done its utmost to provide its consumers with the best service it can. Not only for in-the-moment questions but also really listening to their feedback. Our visual tool is the tool our consumers have helped us design - we couldn't be happier.
