**Comparative Company Law** Mathias Siems, David Cabrelli, 2018-09-20 As attention moves rapidly towards comparative approaches the research and teaching of company law has somehow lagged behind The overall purpose of this book is therefore to fill a gap in the literature by identifying whether conceptual differences between countries exist Rather than concentrate on whether the institutional structure of the corporation varies across jurisdictions the objective of this book will be pursued by focusing on specific cases and how different countries might treat each of these cases The book also has a public policy dimension because the existence or absence of differences may lead to the question of whether formal harmonisation of company law is necessary The book covers 12 legal systems from different legal traditions and from different parts of the world though with a special emphasis on European countries In alphabetical order those countries are Finland France Germany Italy Japan Latvia the Netherlands Poland South Africa Spain the UK and the US All of these jurisdictions are subjected to scrutiny by deploying a comparative case based study On the basis of these case solutions various conclusions are reached some of which challenge established orthodoxies in the field of comparative company law
