Business Gurus Speak:

Why Business People Speak Like Idiots Brian Fugere, Chelsea Hardaway, Jon Warshawsky, 2005-02-22 There is a fundamental disconnection between the way business people speak and real people communicate From advertisers big business and CEOs the blather is coming at us in waves The International Language of Business is no longer English it s gobbledygook The authors blindly discovered the enormity of the problem in June 2003 with the launch of Bullfighter an anti jargon software tool But jargon is just one symptom in a larger problem afflicting corporate communications today the wholesale inability to connect with an audience In the form of admirably straight talk we discover how to avoid the obscurity trap the anonymity trap the hard sell trap and most importantly the tedium trap In this witty and practical new book readers are given all the tools they need to fight the spin and learn to speak like the rest of us *HAPRER'S ENCYCLOPEDIA OF UNITED STATES HISTORY* ,1912 **Monthly Journal of Insurance Economics** ,1928 **House of Commons Debates, Official Report** Canada.
