Business Institutions And Ethics A Text With Cases And Readings:

Business, Institutions, and Ethics John William Dienhart, 2000 Business Institutions and Ethics A Text with Cases and Readings is the first text to use the analysis of social institutions to examine business ethics It explains fundamental concepts in ethics and how to apply them to business and economics The author shows how social institutions are constituted by an integrated set of ethical economic and legal principles and then uses these principles to study the ethics of commerce at the individual organizational and market levels This unique work features thirty four cases and articles that are organized into economic categories providing a conceptual unity and flexibility not found in similar texts The first half of the text focuses on theory beginning with a case study that illustrates and unifies the theoretical discussions that follow It examines market institutions organizational structure and individual decision making interprets moral development as a process within institutional settings and explains egoism care utilitarianism right and pluralistic ethical theories It also discusses how economic analyses of markets and firms incorporate ethical principles and argues that law reinforces ethical and economic aspects of social institutions important to the continued existence and well being of society The second half of the text consists of cases and articles organized by the economic categories of property risk reward relationships information and competition Topics covered include corporate control workplace dangers marketing and manufacturing relocation Applicable in both business schools and philosophy departments Business Institutions and Ethics shows how ethical principles can help us gather sort and interpret information necessary for making sound business decisions Ideal for courses in business ethics and business and society it is also a valuable reference for business professionals and philosophers **Power and Principle**

in the Market Place Professor Jacob Dahl Rendtorff, 2013-02-28 In the global financial crisis the need to develop a new kind of economy with a closer relation between ethics and economics has become an important challenge to the international society This book contributes to this debate by investigating different aspects of global business ethics and corporate social responsibility which are becoming more and more important in the ongoing discussions on the relation between market institutions and democratic governments The different chapters of the book deal with fundamental philosophical issues of the ethics of the market economy including discussions of the role of the social sciences and economics in contributing to a sustainable economics and global responsibility in the twenty first century In this sense the book takes up the transnational debate on ethics and economics in order to contribute to a more balanced fair just and conscientious development in the world The book starts with a European perspective on these issues based on philosophical sociological and economic views from Europe These views are further developed in order to share thoughts of how to improve corporate social responsibility welfare and justice and the advancement of ethical principles in the international context It is argued that in the international community good corporate citizenship as social and environmental responsibility is realized through individual and organizational cosmopolitan responsibility for fostering the common good for humanity The chapters of the book were

Rising Above Sweatshops Laura P. Hartman,Denis Arnold,Richard E. Wokutch,2003 Workers have basic rights that should not be violated notwithstanding the geographical locale of their work But those rights often appear to conflict with the economic and commercial needs of both developing nations and multinational enterprises Creative approaches are necessary if workers rights are to coexist with commercial success or even survival This book introduces the current global labor milieu and showcases innovative solutions via original case studies e g Nike Levi Strauss which demonstrate how multinational enterprises can respect worker rights while benefiting from the economic advantages of a global labor market Part I provides an overview of global labor challenges from a broad variety of perspectives including economics public policy philosophy and strategic management The facts and contention of the new sweatshop school of thought are analyzed along with industrialization and utilization of labor in developing countries the application of basic human rights to the circumstances of workers the unique role of nongovernmental organizations in the debate over global labor practices and the Total Responsibility Management approach to implementing improved labor practices Part II analyzes case studies based on

original field research of well known global corporations The examined programs provide examples of innovative responses by multinational firms the International Labor Organization and other NGOs to challenges regarding global labor practices These cases can help other firms avoid the unhappy dilemma of either exploiting workers and enduring a public relations backlash or terminating operations in various developing nations The true solution lies in companies respecting worker rights while benefiting from the economic advantages of a global labor market

Transition Redesigned Wojciech W. Gasparski,2017-07-28 Transition Redesigned deals with the philosophical bases of different types of transition change in the economy organizational institutional change and change in social and individual relationships The editors primary goal is to give further impetus to a much needed worldwide debate on the issue of transition towards a better future The volume reviews transitions made in different areas of human activity assesses their relevancy and analyzes their contexts During this century different organizations and institutions will undergo a level of radical and global change that has rarely been seen The expected shift must be addressed in terms of a multidimensional transition toward building a sustainable society Do we have an understanding of transition relevant to the task of meeting at least some of the challenges presented in this volume Do we need a radical innovation for redesigning the transition that may enforce real social and ethical responsibilities into organizational practice on different levels and bring to life new ideas Transition Redesigned seeks to answer these questions

Harvard Business School Core Collection Baker Library,1999 Managing Business Ethics Linda K. Trevino,Katherine A. Nelson,2010-08-23 While most business ethics texts focus exclusively on individual decision making what should an individual do this resource presents the whole business ethics story Highly realistic readable and down to earth it moves from the individual to the managerial to the organizational level focusing on business ethics in an organizational context to promote an understanding of complex influences on behavior The new Fifth Edition is the perfect text for students entering the workplace those seeking to become professionals in training communications compliance in addition to chief ethics officers corporate counsel heads of human resources and senior executives
