

BUSINESS STRATEGY GAME QUIZ 2 2024

Based on the industry-low, industry-average, and industry-high values for the benchmarked data on p.7 of the FIR, which one of the following is the strongest and most valid signal that one or more elements of a company's costs are too high relative to those of rival companies?

???? The company's distribution and warehouse costs per pair available in the Europe Africa region were \$1.00 above the industry average

i looked through the FIR and this was the one that made most sense for my company

If a company spends \$80 million to build facility space sufficient to hold 5 million pairs of footwear making equipment at a site in Latin America, then the company's annual depreciation costs for this facility space will e

\$8,000,000

IF a company is pursuing a strategy to produce branded footwear at a low total production cost relative to rival companies, then it should regularly review

the production cost benchmarking data on p. 6 of each issue of the Footwear Industry Report to see if its efforts to achieve low total production costs per branded pair have been more/less successful than other companies pursuing much the same outcome

Given the following data from a Comparative Efforts page in the CIR, based on the data for you company, which of the following statements is false

Your company had a competitive advantage in delivering orders for branded footwear to retailers

Given the following Year 12 balance sheet data for a footwear company: Based on the above figures and the definition of the debt asset ratio presented in the help section for P.5 of the Footwear Industry Report, the company's debt/assets ratio (rounded to 2 decimal places)

0.48

The debt-to-assets ratio is defined as total liabilities divided by total assets—both numbers are shown on the company's balance sheet. A debt-to-assets ratio of .20 to .35 is considered "good".

$200,000 / 420,000 = 0.476$

A company's management team should compete seriously against rivals to win a private label footwear contract in a particular geographic region when

It concludes that the company more than enough production capacity to produce the needed pairs of branded footwear, and based on its projections, determines that the Company's profitability and be increased by competing for and winning private-label contracts.
