*Venture Capital Financing of U.S., UK, German and French IT Start-ups* Michael Jurgen Garbade,2011-04-14 Doctoral Thesis Dissertation from the year 2011 in the subject Business economics Investment and Finance University of Kassel Research Group Entrepreneurship language English abstract Independent Venture Capital IVC has been paramount in the emergence of the information technology industry in both the United States and Europe There are relatively few large global information technology companies in Europe A widening gap is observable in the success rate of IVC backed start ups between the U S and Europe in the information technology industry This difference could be attributable to the differences in the venture capital financing of start ups in the U S UK Germany and France This book deals with Differences in Venture Capital Financing of U S UK German and French Information Technology Start ups The comparative analysis is conducted on a microeconomic level

managerial venture capital research i.e. on the venture capital firm level. The differences are analyzed for the whole venture capital investment cycle: contact phase, initial screening phase, due diligence phase, deal structuring and negotiation phase, management phase, value adding services and exit phase. The research framework model examines the following differences in the venture capital investment cycle: average size of investment in the seed stage, average size of investment in the start up stage, average size of investment in the growth stage, percentage of start ups in pre-revenue phase at time of investment, percentage of start ups not managed by founders but experienced managers, percentage of investment in start ups with multiple products, percentage of market analysis due diligence done informally, typical liquidation preference, multiple percentage syndicated exits that are outperformers, number of tranches per investment round, number of board seats per partner and the cash multiple X that defines an outperformer. The empirical research work is based on an extensive scientific online questionnaire with VCs in the U.S., UK, Germany and France. Before the online questionnaire was drafted, a preliminary face-to-face expert interview was conducted with 24 VCs in Silicon Valley, London, Paris, Hamburg, Berlin and Munich. The primary data collected in the questionnaire served as basis for quantitative parametric and non-parametric statistical analysis. The book is bespokenly written for decision makers in the venture capital industry in the U.S., UK, Germany and France: all entrepreneurs and professionals who want to understand the economics and mechanics of venture capital term sheet clauses, venture capital industry professionals, VC associations.

**High Performance Through Process Excellence** Mathias Kirchmer, 2008-10-01. Continuously changing customer and market requirements have become a dominating factor in today's global business environment. Enterprises have to take smart decisions and execute fast. Innovation and agility become key success factors. Process excellence is the glue that brings everything together. The Management of Process Excellence (MPE) has become a main enabler of High Performance. It leads to a functioning Real Time Enterprise. MPE links strategy with people and technology like Service Oriented Architectures (SOA) or Web 2.0. Knowledge assets such as Process Reference Models increase productivity. Emergent Processes and Inter-enterprise Collaboration are addressed specifically. MPE delivers Process Governance for large organizations as well as for small and medium enterprises. The book addresses executives and managers as well as educators and students.
