**Butt Out** ,2010 In 2008 the Centers for Disease Control and Prevention

reported that an estimated 46 million people or 20.6 percent of all adults aged 18 years and older in the United States smoke cigarettes. Cigarette smoking and exposure to secondhand smoke account for about 443,000 deaths or one of every five deaths in the U.S. annually. Although it is difficult to determine the level of cigarette use in the homeless population, a study conducted in 2008-2009 estimates the prevalence of smoking among homeless people at 73 percent.

[Quit Smoking: Finally Tell Cigarettes to Fuck Off](#) J. K. Young, 2019-11-13 Before you buy this book let me ask you these simple questions: Are you tired of the same old self-help books? Are you tired of reading a bible to quit smoking? Are you tired of hearing whiny-ass doctors complain about it? Then try the new kick-ass approach to telling smoking to fuck off. This book is not intended to educate you on the history of smoking; what this book will do is convince you to tell smoking to fuck off in less than 96 hours. I am going to warn you that this is not your traditional bullshit self-help book about quitting smoking. This book is written for those brave Mother Fuckers who want to take that next step in their life and become free from nicotine. Now it doesn't matter whether that be cigarettes, cigars, or even vaping. I chose to write this book as short as possible for two reasons: because one, I am not a professional writer, and two, quitting smoking isn't rocket science. As we both know, there are some dumb fuckers out there that have done the impossible. Stop and take a moment to now think to yourself: are they really dumber? In our opinion, this book will be the best 9.99 you will ever spend. Just think: even buying this book is cheaper than a pack of smokes. Here are some quick questions for you: Are you tired as hell with getting winded after 50 ft jog or sick of the famous mating call of the smoker, the smoker's cough? Well, then this is the book for you, and it is going to knock your fucking socks off. In the end, you and only you will come out with two results: in lament terms, either you will quit or you don't. In the end, you are the only person responsible for those results, regardless of all the fucking excuses in the world. I like to use this statement a lot: there are always excuses, but is there really ever a reason? Go ahead and join the revolution in telling smoking to fuck off.
