In Darkest Depths David Thompson, 2008 The King family takes on a mysterious monster lurking in their lake

Nature Wars Jim Sterba, 2013-11-12 For four hundred years explorers traders and settlers plundered North American wildlife in an escalating rampage but in the twentieth century an incredible turnaround took place Conservationists created wildlife sanctuaries restored habitats and imposed regulations on hunters and trappers Over decades they nursed many wild populations back to health Then after World War II something happened that conservationists hadn't foreseen sprawl People moved into suburbs and then kept moving outward All the while well meaning efforts to protect animals allowed wild populations to burgeon out of control causing damage costing billions degrading ecosystems and touching off disputes that polarized communities The result is a mix of people and wildlife that should be an animal lover's dream but often turns into a sprawl dweller's nightmare Deeply researched eloquently written and perceptively humorous *Nature Wars* expresses the need for organic reconnection with our natural ecosystem by offering a provocative look at how Americans created an inadvertent mess
