The Making of an Abolitionist Denis Brennan, 2014-07-09 William Lloyd Garrison s life as an abolitionist and advocate for social change was dependent on his training as a printer None who have studied Garrison can ignore his editorship of *The Liberator* but many have not fully understood his belief in the central role of a well edited newspaper in the maintenance of a healthy

republic and the struggle to reform society Church politics and publishing were the three foundations of Garrison's life Newspapers he believed were especially important for they provided citizens in a democracy the information necessary to make their own choices When ministers and politicians in the North and the South refused to address the horror of slavery and became tacit advocates for the peculiar institution he was compelled to employ the printing press in protest This book traces his path from printer to publisher of *The Liberator* Garrison had not become a publisher to advocate abolition he was a mechanic and an editor later a reformer but always a printer His expertise with the printing press and the practice of journalism became for him the natural means for ending slavery

Manhood and the American Renaissance David Leverenz, 2019-06-30 In the view of David Leverenz such nineteenth century American male writers as Emerson Hawthorne Melville Thoreau and Whitman were influenced more profoundly by the popular model of the entrepreneurial man of force than they were by their literary precursors and contemporaries Drawing on the insights of feminist theory gender studies psychoanalytical criticism and social history *Manhood and the American Renaissance* demonstrates that gender pressures and class conflicts played as critical a role in literary creation for the male writers of nineteenth century America as they did for the women writers

Leverenz interprets male American authors in terms of three major ideologies of manhood linked to the social classes in the Northeast: patrician, artisan, and entrepreneurial. He asserts that the older ideologies of patrician gentility and of artisan independence were being challenged from 1820 to 1860 by the new middle class ideology of competitive individualism. The male writers of the American Renaissance, almost without exception, in their backgrounds and self expectations were fascinated yet horrified by the aggressive materialism and the rivalry for dominance they witnessed in the undeferential new men. In close readings of the works both of well known male literary figures and of then popular authors such as Richard Henry Dana Jr and Francis Parkman, Leverenz discovers a repressed center of manhood beset by fears of humiliation and masochistic fantasies. He discerns different patterns in the works of Whitman with his artisan's background and Frederick Douglass who rose from artisan freedom to entrepreneurial power. Emphasizing the interplay of class and gender, Leverenz also considers how women viewed manhood. He concludes that male writers portrayed manhood as a rivalry for dominance but contemporary female writers saw it as patriarchy. Two chapters contrast the work of the genteel writers Sarah Hale and Caroline Kirkland with the evangelical works of Susan Warner and Harriet Beecher Stowe. A bold and imaginative work, *Manhood and the American Renaissance* will enlighten and inspire controversy among all students of American literature.

Invisible Masters Elisabeth Ceppi, 2018-07-03 *Invisible Masters* rewrites the familiar narrative of the relation between Puritan religious culture and New England's economic culture as a history of the primary discourse that connected them service The understanding early Puritans had of themselves as God's servants and earthly masters was shaped by their immersion in an Atlantic culture of service and the worldly pressures and opportunities generated by New England's particular place in it Concepts of spiritual service and mastery determined Puritan views of the men women and children who were servants and slaves in that world So too did these concepts shape the experience of family labor law and economy for those men women and children the very bedrock of their lives This strikingly original look at Puritan culture will appeal to a wide range of Americanists and historians

A Place Called Paradise Kerry Wayne Buckley, 2004 In 1790 President Timothy Dwight of Yale offered this description of Northampton a town situated on the banks of the Connecticut River in western Massachusetts The inhabitants of this valley possess a common character he remarked Even the beauty of the scenery scarcely found in the same degree elsewhere becomes a source of pride as well as enjoyment For Dwight the appeal of the place lay in its proportions which epitomized eighteenth century ideas about the proper balance between the natural world and the built environment Northampton evoked equally powerful visions in others of saving grace and redemption while to Swedish soprano Jenny Lind it was simply a paradise During the 1920s Northampton became Main
