Hidden Faces: Covered Portraits of the Renaissance Alison Manges Nogueira, 2024-04-02 Many small Renaissance portraits were richly adorned with covers or backs bearing allegorical figures mythological scenes or emblems that celebrated the sitter and invited the viewer to decipher their meaning Hidden Faces includes seventy objects ranging in format from covered paintings to miniature boxes that illuminate the symbiotic relationship between the portrait and its pair Texts by thirteen distinguished scholars vividly illustrate that the other faces of these portraits represent some of the most innovative images of the Renaissance created by masters such as Hans Memling and Titian Uniting works that have in some cases been separated for centuries this fascinating volume shows how the multifaceted format unveiled the sitter s identity both by physically revealing the portrait and reading the significance behind its cover German Paintings in the National Gallery of Ireland National Gallery of Ireland, David Oldfield, 1987 **Imago and Contemplatio in the Visual Arts and Literature (1400-1700)** Stijn Bussels, Karl A.E. Enenkel, Michel Weemans, Elliott D. Wise, 2024-01-22 This volume contains twenty four essays which in their subjects and methodology pay tribute to the scholarship of Walter S Melion The contributions are grouped under three categories Devotion Art and Image Theory and Vision and Contemplation The Devotion section addresses votive practices theological theory and polemic literature The Art and Image Theory section focuses on Jesuit image theory the reflexive dimension of works and artists reflections on the function of images Finally the Vision and Contemplation section discusses the early modern eye as a tool for thoughtful prolonged looking to ascertain visual wit deception self assessment and friendship sacred and profane allegories **Religion and Culture in Germany (1400-1800)** Robert Scribner, 2021-10-18 The late Bob Scribner was one of the most original and provocative historians of the German Reformation His truly pioneering spirit comes to light in this collection of his most recent essays In the years before his death Scribner explored the role of the senses in late medieval devotional culture and wondered how the Reformation changed sensual attitudes Further essays examine the nature of popular culture and the way the Reformation was institutionalised considering Anabaptist ideals of the community of goods literacy and heterodoxy and the dynamics of power as they unfold in a case of witchcraft The final section of the book consists of three iconoclastic essays which together form a sustained assault on the argument first advanced by Max Weber that the Reformation created a rational modern religion Scribner shows that far from being rationalist and anti magical Protestants had their own brand of magic These fine essays are certain to spark off debate not only among historians of the Reformation but also among art historians and anyone interested in the nature of culture **Six Centuries of Master Prints** Cincinnati Art Museum, 1993 Published in conjunction with an exhibit featuring the prints that were selected for research from the estimable collection housed at the
