Yellowlegs John Janovy, 2016-08-02 In *Yellowlegs* John Janovy again displays his rare talent for making the scientific accessible and the personal universal. The result is an extraordinary parable of man and technology. It is also an intensely personal account of one man's journey toward an understanding of himself, of his fellow man, and perhaps most important, of the secrets of a single sandpiper, a *Tringa flavipes* or lesser yellowlegs. We fly with Janovy's *Yellowlegs* from its nesting grounds in the Canadian north to South America and back. And along the way we join a slightly crazed biologist who leaves his university position, withdraws his life savings from the bank, and decides to follow the bird on its odyssey. Starting on the sand flats of Nebraska and progressing across Kansas and down to the Gulf of Mexico with a brief stop in Oklahoma, our migratory route brings us into contact not only with the wild creatures of the American West but with the people, a few of whom are pretty wild themselves, with whom Janovy talks, drinks, and debates. Seldom has the life of a wild creature been so intimately and vividly described. Seldom have hard science and mysticism been more successfully and lyrically combined. There can be little question that *Yellowlegs* will take its place as a classic of nature writing at its best.

Pop-Up Books Nancy Larson Bluemel, Rhonda Harris Taylor, 2012-02-02 A convincing explanation of why interactive or movable books should be included in the library collection that documents their value as motivational instructional tools in all areas of the school curriculum across many grade levels. Pop-up books possess universal appeal. Everyone from preschoolers to adults loves to see and tactilely experience the beautiful three-dimensional work of Robert Sabuda, David A. Carter, and other pop-up book creators. Sabuda himself was inspired to become a pop-up book artist after experiencing the 1972 classic pop-up *The Adventures of Super Pickle*. The effect of these movable books on young minds is uniquely powerful. Besides riveting children's attention, pop-up books can also help build motor skills, teach cause and effect, and develop spatial understanding of objects. Based on their direct experience and many presentations to teachers and librarians, the authors have provided template lesson plans with curriculum and standards links for using the best pop-up books currently available in the instructional program of the school. The book also includes profiles of the most notable authors, a history of the format, definitions of terms such as flap book and paper engineer, and information on how to create movable books. Librarians will find the section regarding collection development with the format, how and where to acquire them, proper storage methods, and the annotated listing of the authors' 50 favorite pop-ups extremely helpful.

BattleTech: Tales of the Bounty Hunter Philip A. Lee, John Helfers, 2025-11-28 WANTED DEAD OR ALIVE. Wearing unique green power armor and piloting a bright green Mech adorned with credit symbols, the legendary Bounty Hunter first appeared during the late Third Succession War, and though his price might be high, his fearsome reputation has ensured the job will always get done, guaranteed. Throughout the centuries, the Bounty Hunter has gone through numerous reinventions, each holder of the mantle passing the tradition to the next generation. But who truly lies behind the mask, and are they friend or foe? This anthology

traces the Bounty Hunter's singular legend across the centuries beginning with his origins in the 1920s and going all the way to the latest inheritor of the mantle in the iClan era of 3151. Filled with action, betrayal, and intrigue, these twelve BattleTech stories chronicle never-before-seen moments of the Bounty Hunter's history. Step into the Bounty Hunter's iconic green power armor and chase down criminals, miscreants, and even the notorious Black Widow herself in gritty gunslinging tales by Geoff Swift, Giles Gammage, Russell Zimmerman, Wunji Lau, Chris Hartford, Bryan Young, Alan Brundage, Daniel Isberner, Michael J. Ciaravella, and Kevin Killiany.

NOTE: This is the same anthology that was distributed to the BattleTech Mercenaries Kickstarter campaign. If you received this story through the campaign, you do not need to buy it here.

Storm of Attraction Lily Black, 2017-02-13. Love is worth fighting for. Alexa Wolving has just one rule: never give a guy a second chance. That works just fine in the safe life she's built. In the charming town of Willowdale, her day job as a librarian balances perfectly with her evening job as a black belt instructor. But when she attracts the attention of a stalker, Alexa's carefully built world begins to crumble. Drew Cosimo knows he broke Alexa's heart five years ago when he took his first Ranger assignment and disappeared from her life. Now that he's out of the army, he's moving back home to Willowdale. He's not looking for a fight, but making peace would be easier if Alexa hadn't told the entire town he was a money-grubbing jerk. Despite the tension between them, Drew is quick to offer his protection when a stalker forces Alexa from her home. As the stalker's attacks escalate, Alexa and Drew are forced to face their painful past and the simmering attraction between them. They must fight to save each other before everything they care about goes up in flames.
