depending upon its prominence and importance is followed either by a definition paragraph essay composition article or feature article Many of the more complex entries are supported with figures or tables While the authors have adhered to the principles of scientific discipline they have also taken the effort to make the text highly accessible to anyone with an interest in sports nutrition Extremely relevant the listings include important issues regarding exercise metabolism and performance recent products both legal and illegal as well as common dietary supplements and traditional herbs Recent events make it clear that it is becoming more and more challenging for practitioners to adhere to the Hippocratic caveat of do no harm as supplements become more potent and potentially more dangerous With its desk reference on sports nutrition CRC has taken the lead in helping to meet that challenge Primary author and editor Mark Kern PhD RD Department of Exercise and Nutritional Sciences San Diego State University Editor in Chief of SCAN s PULSE American Dietetic Association Contributing authors Yael *Preventive Nutrition* Adrienne Bendich, Richard J.
