Dislocating Race and Nation Robert S. Levine, 2009-06-01 American literary nationalism is traditionally understood as a cohesive literary tradition developed in the newly independent United States that emphasized the unique features of America and consciously differentiated American literature from British literature Robert S Levine challenges this assessment by exploring the conflicted multiracial and

contingent dimensions present in the works of late eighteenth and nineteenth century American and African American writers Conflict and uncertainty not consensus Levine argues helped define American literary nationalism during this period Levine emphasizes the centrality of both inter and intra American conflict in his analysis of four illuminating episodes of literary responses to questions of U S racial nationalism and imperialism He examines Charles Brockden Brown and the Louisiana Purchase David Walker and the debates on the Missouri Compromise Nathaniel Hawthorne Herman Melville and Hannah Crafts and the blood based literary nationalism and expansionism of the mid nineteenth century and Frederick Douglass and his approximately forty year interest in Haiti Levine offers critiques of recent developments in whiteness and imperialism studies arguing that a renewed attention to the place of contingency in American literary history helps us to better understand and learn from writers trying to make sense of their own historical moments

Education and the Making of a Democratic People John I. Goodlad, Roger Soder, Bonnie McDaniel, 2015-11-17 Unfortunately civic values such as equity and justice that constitute the moral grounding of American democracy are losing their place in public affairs The promise of this democracy is inclusive no one is to be left out Yet many people are Education and the Making of a Democratic People regards the challenge of inclusiveness as a fundamental and non negotiable educational agenda America s public schools are a main public forum in which people can learn to preserve and actively protect our democratic process The value of our schools as a democratic forum extends beyond the classroom to parents and other members of local communities By engaging in conversations and actions that support the democratic purpose of schools local communities can ensure that the United States will become a healthy robust democracy that represents all of its citizens

Saltpeter David Cressy, 2013-01-11 This is the story of saltpeter the vital but mysterious substance craved by governments from the Tudors to the Victorians as an inestimable treasure National security depended on control of this organic material that had both mystical and mineral properties Derived from soil enriched with dung and urine it provided the heart or mother of gunpowder without which no musket or cannon could be fired Its acquisition involved alchemical knowledge exotic technology intrusions into people s lives and eventual dominance of the world s oceans The quest for saltpeter caused widespread vexation in Tudor and Stuart England as crown agents dug in homes and barns and even churches Governments hungry for it purchased supplies from overseas merchants transferred skills from foreign experts and extended patronage to ingenious schemers while the hated saltpetermen intruded on private ground Eventually huge saltpeter imports from India relieved this social pressure and by the eighteenth century positioned Britain as a global imperial power the governments of revolutionary America and ancien r gime France on the other hand were forced to find alternative sources of this treasured substance In the end it was only with the development of chemical explosives in the late Victorian period that dependency on saltpeter finally declined Saltpeter the Mother of Gunpowder tells this fascinating story for the first time Lively and entertaining in its own right it is also a tale with far reaching implications As David Cressy s engaging narrative makes clear
