Creating The Palestinian State:

Creating the Palestinian State Jerome M. Segal, 1989-01-01 The author offers a strategy proposal for resolving the Arab Israeli conflict in the Middle East arguing that the existence of a Palestinian state would guarantee a humane and safe Israel

Creating the Palestinian State Jerome M. Segal, 1989 *Building a Successful Palestinian State* Robert E.

Hunter, Seth G. Jones, 2006-03-08 Throughout the history of Arab Israeli peace negotiations security has been the most important and most challenging issue for Palestinians Israelis and their neighbors This study examines key external security issues regarding the construction of a Palestinian state Its proposals include a NATO led international peace enabling force and Israeli Palestinian confidence building measures

Building a Successful Palestinian State David Gompert, Kenneth Shine, Glenn Robinson, C. Richard Neu, Jerrold Green, 2001-04-22 An examination of how an independent Palestinian state if created can be made successful The authors describe options for strengthening governance security economic development access to water health and health care and education and estimate the financial resources needed for successful

development over the first decade of independence **Building a Palestinian State** Glenn E. Robinson, 1997 Up to date analysis of grassroots Palestinian politics Islamism and the emerging Palestinian polity Lordship and Liberation in

Palestine-Israel Muhannad Ayyash, 2025-07-22 This interdisciplinary book provides timely fresh perspective on Palestine Israel by rethinking the nature of settler colonial sovereignty and the relationship between land and people Muhannad Ayyash argues that this relationship comes in two distinct forms a settler colonial type practiced by the Israeli state that consists of lordship over land and people and a decolonial type seen in Palestinian popular organizing that he calls land as life a reciprocal bond The former is characterized by private ownership possession and violent expulsion of others the latter by communal ownership belonging to the land and opposition to the violence of expulsion Ranging widely across theory and history Ayyash contends that the opposition between these two types is at the core of the Palestinian Israeli struggle The choice before us today he concludes is between the continuation of the Israeli settler colonial project in particular and the project of colonial modernity in general or the commencement of a decolonial age in Palestine Israel and beyond Offering both novel theorizations and politically engaged analysis Lordship and Liberation in Palestine Israel illuminates how decolonial sovereignties represent an alternative to settler colonial violence Political Decision Making and Non-Decisions

R. Ranta, 2015-05-05 This book examines Israel s relationship and political decision making process towards the Occupied Territories from the aftermath of the Six Day War to the Labour Party s electoral defeat in 1977 The period represents the first decade of Israel s occupation of the Occupied Territories and the last decade in which the Labour Party was Israel s most dominant political force Arguing that the successive Israeli governments headed by the Labour Party lacked a strategic policy towards the Occupied Territories to address the country s objectives and needs this book demonstrates the detrimental effect this had on Israel on the Middle East in general and on the Palestinian people in particular In addressing key aspects

of decision making pathologies this book raises issues which remain important features of Israeli politics today and an analysis relevant for political decision making worldwide

Palestine in EU and Russian Foreign Policy Malath Alagha, 2016-10-04 The establishment of a Palestinian state has long been a strategic objective of EU and Russian foreign policy in the Middle East However over a decade after the creation of the road map the establishment of an independent Palestinian state has still not been achieved Palestine in EU and Russian Foreign Policy uses the school of constructivism to provide a new understanding of EU and Russian foreign policy It explores the failure of these global actors to speed up the process of establishing a Palestinian state despite this being a strategic objective and top priority of their involvement in the Middle East peace process The book then analyses the role of identity and self other perception in the making of EU and Russian foreign policy towards the Middle East peace process It is argued that Palestinian statehood provides a telling empirical example of how and to what extent the search for global actorness as a matter of international identity informs foreign policy making by global actors The book then proceeds to discuss why the EU and Russia are so eager to be involved in initiating a peace settlement Offering a new understanding of foreign policy making by global players in Middle Eastern politics this book will appeal to students scholars and policymakers working in International Relations and European Russian and Middle Eastern studies

The West Bank and Gaza Emile A. Nakhleh, 1979

The Palestine Weekly, 1929

The Legal Case for Palestine Steven E. Zipperstein, 2024-07-31 This book critically analyzes the Palestinian legal arguments against Israeli occupation and in favor of Palestinian statehood For the past two decades Palestinians have chosen to pursue their claims against the Israeli occupation through litigation at the international courts It is therefore appropriate the author contends to analyze the merits of the Palestinian legal claims separately from their political claims To do so the book comprises five parts Part I addresses the role of international law in the conflict as well as Palestinian legal framing and lawfare Part II recounts the relevant legal history including the crucial legal implications of the Oslo Accords Part III analyzes Palestinian legal claims regarding the West Bank and the Gaza Strip Part IV assesses the Palestinian legal case for statehood Part V analyzes Palestinian legal claims regarding Jerusalem Ultimately it is argued that the Palestinian legal case is weak even though the two state solution continues to represent the most viable long term political outcome to the conflict Moreover the author suggests that Palestinian leaders have repeatedly opted for conflict perpetuation through lawfare and violence rather than conflict resolution through negotiation Providing fresh insights into the claims and counterclaims of Palestinian legal arguments the book will appeal broadly to anyone interested in the Israeli Palestinian conflict and international law
