devalued for centuries we are so done with that story now But it s still a paradox Because within this very rising women are longing to step out of the noise and chaos to live more simply They want time and space for what s most important to them and the comfort consciousness and connection that often gets lost in the busyness and distractions of daily life This book is the bridge women have been seeking Written with the time poor reader in mind this book includes 200 short form chapters the perfect length for dipping into while commuting during a lunch break or at the end of the day The perfect gift or self gift for women of all ages **Creating Affluence** Chopra,2002-08 **The Quiet Rich** Kevin J. Palmer,2015-05-06 Finally a book about how average folks do above average things in order to achieve financial freedom More than a how to book this is an I can book that illustrates how connecting behaviors that naturally exist within one s personality makes it easier for anyone to unleash success In this book the author disrupts covetous schemes to instead reveal morally principled stories about what truly makes America great and how those understandings can equalize wealth injustices and improve the human condition After years of drilling down to what truly makes people successful Wall Streeter Behavioral Finance Researcher and Champion of Financial Justice Kevin J Palmer has unlocked how a distinctive group of individuals he calls The Quiet Rich used a spiritual connection to their personalities to make cognitive decisions that created wealth Palmer uncovers victorious interpretations from hundreds of study subjects whose activities translated into wealth from a hitchhiker turned serial entrepreneur to a grandmother who made her fortune wisely investing cookie jar money His less traveled path of underlying research has blended powerful lessons by correlating Secret Success Standards of The Quiet Rich into common personality types that fit all people What makes this book unique is that until now wealth techniques have come from instructors declaring what they think will work for others Here one self discovers personal achievement practices by synthesizing the experiences of ordinary people who became successful through interpreting spiritual self and then applying actions that uniquely fit the personality This is not a one man mandate that tests how to get rich Instead it is a collective voice of many achievers who took individualized paths to attain wealth that intuitively leads others on their own exclusive journey so that it is genuinely effective This book shines with applied wisdom courage and the confidence to build meaningful fruitful lives while amassing wealth based on virtues learned from these quiet and rich Americans that no one has known until now
