Creation and Christ Angela Costley, 2020-11-09 The Epistle to the Hebrews is usually associated with its theology of Christ the High Priest However the term high priest is not so common in the first four chapters of Hebrews occurring only four times with a further reference to sacrifice in 1 3 Rather than emphasising the priestly or sacrificial activity of Christ these opening sections contain a number of references to creation 1 2 3 10 12 2 5 9 10 3 1 6 4 3 4 and 4 9 10 In this volume Angela Costley uses discourse analysis to explore the importance of the topic of creation to the discourse of the Epistle to the Hebrews uncovering a close link between creation and salvation She highlights the interaction of the topic of creation with the topic of salvation in the discourse to uncover a depiction of Christ as the creator who descends to take on human flesh God who becomes human in order to lead humanity heavenward

Christ and Creation Colin E. Gunton, 2005-06-09 The relation the connection between Christ and creation is the subject of this book which author Colin Gunton describes as a summary dogmatic christology Central to Gunton s christology are a strong incarnation creation link and the doctrine of the Holy Spirit Constituting the published version of the 1990 Didsbury Lectures delivered by Gunton at British Isles Nazarene College Christ and Creation offers thought provoking reflections on major theological themes and realities creation redemption the Trinity horizontal and vertical relatedness Christ s incarnation virgin birth passion crucifixion resurrection and ascension election freedom the Kingdom of God and the church Weaving pneumatological teleological eschatological anthropological and ecological strands into his christology Gunton draws from and interacts with a wide range of theologians from ancient to modern Paul Irenaeus Augustine Anselm Aquinas Calvin Schleiermacher Barth Moltmann Pannenberg Thomas Torrance John Robinson and many others

Christ and Creation Noel O'Sullivan, 2009 This book sets out to interpret Henri de Lubac s theology of creation from a christological perspective The challenge of this research has been the absence of a systematic christology in the writings of de Lubac Yet it is possible to posit a Lubacian christology by sifting through the author s work on a myriad of subjects The point of entry is the patristic distinction between image and likeness whereby image is understood as an inamissible seal which bestows the divine prerogatives of reason freedom immortality and dominion over nature Likeness is a potential given at creation and realised in the course of the economy of salvation De Lubac describes it variously as divinisation divine union the supernatural dignity of the human being and participation in the internal movement of the Trinity The originality of this book consists in the gradual emergence of the

role of Christ in the process whereby image becomes likeness De Lubac records his intention to publish a book on Jesus Christ an ambition he never realised The present book does not just illustrate the omnipresence of Christ in the writings of de Lubac but dares to delineate what a Lubacian christology would look like **Christ the Heart of Creation** Rowan Williams,2018-09-06 In this wide ranging book Rowan Williams argues that what we say about Jesus Christ is key to understanding what Christian belief says about creator and creation overall Through detailed discussion of texts from the earliest centuries to the present day we are shown some of the various and subtle ways in which Christians have discovered in their reflections on Christ the possibility of a deeply affirmative approach to creation and a set of radical insights in ethics and politics as well Throughout his life Rowan Williams has been deeply influenced by thinkers of the Eastern Christian tradition as well as Catholic and Anglican writers This book draws on insights from Eastern Christianity from the Western Middle Ages and from Reformed thinkers from Calvin to Bonhoeffer as well as considering theological insights sparked by philosophers like Kierkegaard and Wittgenstein Christ the Heart of Creation concerns fundamental issues for Christian belief and Williams tackles them head on he writes with pellucid clarity and shows his gift for putting across what are inevitably complex ideas to a wide audience Creation Edward W. H. Vick,2012-07-06 Christian discussions of creation or origins typically start with one of the standard positions on this contentious doctrine and then presents the arguments in favor of that position In this book Edward W H Vick looks at creation as a matter of systematic theology What does it mean for a doctrine to be called Christian How does one derive and express a doctrine of creation that is truly Christian in content He starts by distinguishing biblical theology the topic of companion volume Creation in Scripture by Herold Weiss from the systematic theology approach used in this book This book is divided into three parts Each has its own style and function The first presents an introductory statement about how we approach a doctrinal explanation of the theme of Creation Then we give a theological account of the meaning of the assertion that God is Creator The second presents statements by representative respected theologians as they expound the theme and argue for a separation of theology from science It presents some quite basic positions The third is in the form of a conversation an effective way of introducing differing points of view pro and con Finally the book includes a series of questions for each chapter making it useful as a basis for group study and discussion This book will provide a solid theological foundation for further study of origins in the context of Christian faith **From Creation to Re-Creation** Daniel Lazich,2021-09-27 Within the last forty years scientific discoveries and knowledge about our universe contain unprecedented theological implications They imply that the creator exists more so than ever before These discoveries have developed a worldview that challenges both theologians and scientists to engage in a mutually fruitful dialogue From Creation to Re Creation uniquely presents God s accomplishments as author Daniel Lazich transports himself to a time when authors wrote creation narratives to depict the contrast between the ancient epics and biblical narrative It forcefully asserts that the creation of this world and humankind was accomplished by the Creator who

loves humanity selflessly This assertion is backed by the most advanced study and research concerning our universe s nature Lazich writes that the final observer in quantum cosmology and God in the Bible are the same From Creation to Re Creation employs unprecedented theological implications to assert that the creator s existence is necessary for the universe and humankind in it to exist **Christ of the Creation Days** Gregory J. Girard,2017-08-02 Christ of the Creation Days by Greg Girard I have long been fascinated by the great types of Scripture not clever connections invented by over ingenious preachers but the patterns that underlie the way God repeatedly works both in the people and the events of the Bible Some of them are quite explicit Others you dont see till they are pointed out to you and then you wonder how you could have missed them The more we see one part of Scripture underlining another in what I think of as the repeat of patterns the greater its integrity is seen to be and the clearer its message Greg Girard opens our eyes to a set of correspondences that could not be more basic to the biblical revelation of God Should it surprise us that the sequence of his creative action in the making of the world should be the same shape as the sequence of his redemptive action in revealing himself to his people Yet I for one had never made the connection The creation of light the separation of land and sea the stars of heaven the man appointed to rule all that lives of course these images reappear elsewhere but had you noticed where and at what crucial points in the Bible story The author deserves our thanks for this illuminating and inspiring study Michael Wilcock author of five titles in the Bible Speaks Today series InterVarsity Press and other books of Bible exposition *Dynamics of the new Creation with study notes* Tony Smits,Tony Smits B.Th,2011 *Creation Centred in Christ* Henry Grattan Guinness,1896

God's Workmanship Frank E. Lasater Jr.,2014-08-21 We cannot know God in depth without recognizing and acknowledging His absolute glorious sovereignty over all things in all times and in every aspect of our lives He is Lord and His will reigns supreme When we finally come to this conclusion when our thoughts prayers and daily actions finally align at last with the teachings of Scripture on this most important matter we will know Him better As a consequence the good works to which we were ordained in the new birth will glorify God in His sovereignty *The Gospel in Creation* Ellet Joseph Waggoner,1999-06 The Gospel in Creation is a nicely illustrated work setting forth clearly and simply the relation between God s work in creation and redemption The signs of power and greatness that mark the handiwork of God in the visible universe are shown to be but indications of the unfailing strength with which He works in the lives of those who submit to His will The confirmation of the truths of the gospel drawn from the study of the creation will make this book a valuable one to all who are watching with interest the attacks that are now made on the authority of the Bible **Creation Care and the Gospel** Colin Roy Bell,Robert S. White,2016-01-01 How should Christians react to environmental crisis Historically evangelicals have ignored this aspect of living for Christ so this book aims to reinvigorate and empower Christians across the globe to care for creation This book collects the work of biblical scholars theologians biologists environmental researchers and community organizers who met at The Global Consultation on Creation Care and the Gospel in Jamaica in 2012

Participants from 23 countries as diverse as Argentina Bangladesh Benin and Canada gathered for five days to pray talk and reflect on the state of the planet the home in which we live and on the role and ministry of the church in caring for God's creation The book contains biblical and theological affirmations from well respected scholars and teachers reminding us that caring for creation is central to the evangelical faith It is an integral part of our mission an expression of our worship of God and a matter of great joy and hope

Evolutionary Creation Denis O. Lamoureux, 2008-06-15 In this provocative book evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution versus creation debate Arguing for an intimate relationship between the Book of God's Words and the Book of God's Works he presents evolutionary creation a position that asserts that the Father Son and Holy Spirit created the universe and life through an ordained and sustained evolutionary process This view of origins affirms intelligent design and the belief that beauty complexity and functionality in nature reflect the mind of God Lamoureux also challenges the popular Christian assumption that the Holy Spirit revealed scientific and historical facts in the opening chapters of the Bible He contends that Scripture features an ancient understanding of origins that functions as a vessel to deliver inerrant and infallible messages of faith Lamoureux shares his personal story and his struggle in coming to terms with evolution and Christianity Like many he lost his boyhood faith at university in classes on evolutionary biology After graduation he experienced a born again conversion and then embraced belief in a literal six day creation Graduate school training at the doctoral level in both theology and biology led him to the conclusion that God created the world through evolution Lamoureux closes with the two most important issues in the origins controversy the pastoral and pedagogical implications How should churches approach this volatile topic And what should Christians teach their children about origins

Christ as Creator Sean M. McDonough, 2009-11-26 This book examines the New Testament teaching that Christ was the one through whom God made the world While scholars usually interpret this doctrine as arising from the equation of Jesus and the Wisdom of God Sean McDonough argues that it had its roots in the church's memories of Jesus' miracles These memories coupled with the experience of spiritual renewal in the early church established Jesus as the definitive agent of God's new creation in the New Testament writings and the teachings of the Early Church Following the logic that the end is like the beginning Christ was taken to be the agent of primal creation This insight was developed in light of Old Testament creation texts viewed from within a messianic matrix of interpretation God gives his Word his Spirit and his Wisdom to his Messiah from the very beginning and the Messiah the radiance of God's glory establishes the cosmos in accordance with God's purposes Creation is the beginning of messianic dominion he rules the world he made McDonough carefully substantiates his thesis through a detailed exegesis of the relevant New Testament texts in the context of related texts in Judaism and Greco-Roman philosophy He concludes with a survey of the doctrine of Christ as Creator in the work of six theologians Justin Martyr Irenaeus Athanasius Karl Barth Jürgen Moltmann and Wolfhart Pannenberg

Creation and the Second Coming Henry M.

Morris,1991 To understand the end you must understand the beginning God's plan for the Second Coming of Jesus Christ began in the Book of Genesis with the events of Creation and the rebellious Fall of Man God's great plan of redemption and salvation through Christ is still underway and will culminate with His triumphant return but before this event the Bible tells of a clear set of signs that will mark the final days The political upheaval in the Middle East the New Age movement and the call for a one world government were all foretold in God's Word The Bible's prophetic writers give key signs of the return of Christ and in this classic work from renowned author and creation scientist Dr Henry M Morris he reveals how each sign is an outgrowth of evolutionary humanism or pantheism **Healing All Creation** Joan Connell,Adam

Bartholomew,2019-06-12 In *Healing All Creation* a scripture scholar and a religion journalist explore the literary and theological symmetries of Genesis the Gospel of Mark and the unfolding story of evolution as told by science and the emerging discipline of cosmological theology Read together these narratives shed new light on the Judeo Christian tradition and offer fresh ideas about how to respond to the moral and environmental crises of our times Scientific discoveries make it increasingly clear that everything in the world is connected Physically and spiritually small actions can have great impact In the creation myths of Genesis it is possible for individuals to generate great evil but also do enormous good and repair a broken world Mark's story of the public life of Jesus speaks to the transformative effect of cumulative acts of compassion Cosmological theology suggests that evolution is spiritual as well as material and that our search for meaning is dynamic ongoing and grounded in the sanctity of all creation This book speaks to those for whom Judeo Christian scripture is important but also to those who consider themselves spiritual but not religious those who stand in awe of the majesty of the universe and appreciate the sanctity of all creation It introduces to a general audience a century long dialogue among scientists theologians scripture scholars and summons the voices of 20th century spiritual heroes contemporary theologians and religion scholars from a variety of traditions and perspectives This accessible but scholarly narrative and robust endnotes make it valuable as a textbook for college level courses on religion and ecology The authors offer fresh insights into Mark's story of the healing ministry of Jesus and his relationships with women including his crushing final encounter with the women who stayed with him to the end and the transformative mission it inspired It raises questions about the gender inequity that persists in organized religion and in the world at large This book examines institutional Christianity's historical failures such as the early abandonment of nonviolence and its tendency to question the validity of scientific discoveries It explores the impact of dispensational theology whose vision of a material world ending in fiery apocalypse produced Christians so focused on the end times that they have scant regard for the sanctity of the Earth It has been said that the Bible is the most purchased and least read book in America This accessible narrative introduces a diverse general audience to the riches of contemporary scripture scholarship the wisdom of cosmological theology and a renewed awareness of the sanctity of all creation *The Truth about Creation* Alex Andraos,2017-11 There have been severe differences between science and

the Bible since we can remember The issue has always been creation Science has never been able to take the creation story of the Bible seriously due to wrong teaching by Christians that the earth according to the book of Genesis is only six thousand years old when there is overwhelming evidence that the earth could actually be billions of years old In this book the author remarkably proves that what science has discovered in the past two hundred years the Bible has been teaching all along Those teaching the young earth creation theory have unfortunately left out very important scripture regarding creation and in the process could not prove the truth as taught by the Bible As a result many people have missed out on the kingdom of God In this book Alex E Andraos attempts to put this matter right in a teaching of creation seldom taught in the church of Jesus Christ His objective is very clear The salvation of the souls of those who have rejected the Word of God due to the lack of knowledge by the church of Jesus Christ on this subject In addition the author authenticates the Bible through amazing archeological proof fulfilled prophecy that even involves our present day and he proves the existence of Jesus Christ through sources outside of the Bible In this process the theory of evolution is exposed for what it really is just a theory This is a must read for every Christian and for those who have not allowed themselves to enter the kingdom of God due to doubt formed in their minds because of incorrect Bible teaching regarding creation The Transfiguration of Christ and Creation

John Gatta, 2011-01-01 The biblical story of Jesus Transfiguration on a high mountain bristles with meanings germane to present day concerns and spiritual longings Together with its later artistic representations this episode from the synoptic gospels seizes the imagination as an icon of mystical hope beauty and possibility What might such an iconic episode long honored liturgically in the Eastern church disclose not only about Jesus but also about the prospect of seeing our human nature transformed And as interpreted by Christian tradition since the patristic era what might it tell us about the worth of envisioning not just a conservation or preservation of natural resources but a transfiguration of all creation and about how this feast of beauty could re energize current discussions of Christianity's relation to environmental attitudes and policy Such questions are addressed in this book through an original blend of personal reflection with commentary on relevant theological and scriptural texts literary works music and art The Difference Nothing Makes Brian D.

Robinette, 2023-02-15 This book explores the doctrinal social and spiritual significance of a central yet insufficiently understood tenet in Christian theology creation from nothing In this original study Brian D Robinette offers an extended meditation on the idea of creation out of nothing as it applies not only to the problem of God but also to questions of Christology soteriology and ecology His basic argument is that creatio ex nihilo is not a speculative doctrine referring to cosmic origins but rather a foundational insight into the very nature of the God world relation one whose implications extend throughout the full spectrum of Christian imagination and practice In this sense it serves a grammatical role it gives orientation and scope to all Christian speech about the God world relation In part 1 Robinette takes up several objections to creatio ex nihilo and defends the doctrine as providing crucial insights into the gifted character of creation Chapter 2

underscores the contemplative dimensions of a theological inquiry that proceeds by way of unknowing Part 2 draws from the field of mimetic theory in order to explore the creative and destructive potential of human desire Part 3 draws upon the Christian contemplative tradition to show how the dark night of faith is a spiritually patient and discerning way to engage the sense of divine absence that many experience in our post religious post secular age The final chapter highlights creatio ex nihilo as an expression of divine love God's love for finitude for manifestation for relationship Throughout Robinette engages with biblical patristic and contemporary theological and philosophical sources including among others Ren Girard Karl Rahner and Sergius Bulgakov
