## **Creation Controversy Science Or Scripture In The Schools:**

The Creation Controversy Dorothy Nelkin, 2000 In 1999 by the board of education in Kansas voted to delete all mention of evolution from the state's recommended science curriculum and also from its educational assessment tests This decision and similar decisions in other states suggest the persistence of creationists and their ability to capture sufficient support to influence educational policies Although evolutionary ideas have become increasingly important to many scientific fields the creationists still have significant influence on science curriculum How have religious fundamentalists and right wing conservatives managed to have such influence In this science dominated age why is their such opposition to the teaching of evolution This book places the Kansas decision in the broader context of the controversy between creationists and evolutionists as a group of religious fundamentalists who defined themselves as scientists have challenged the most basic assumptions of contemporary biology Though motivated by religious beliefs they have tried to bypass the Constitutional requirement for the separation of church and state as they seek to influence legislature and school boards Looking at the people involved in this social movement and tracing changes in their arguments and strategies this book links the creation evolution controversy to broader questions about the meaning of religion in a secular science public trust in science and persistent concerns about its social and moral implications

Posner,1995 As a primary text this book provides the backbone for a basic curriculum course at either graduate or undergraduate level It attempts to teach how the parts of a curriculum fit together and how to identify assumptions underlying curricula In this way students develop the ability to determine why a curriculum proves better for some than for others what approaches to teaching are compatible with a particular curriculum what difficulties a curriculum is likely to encounter during implementtationn and what kinds of changes in the curriculum parents students and administrators are likely to demand These are important skills for evaluating selecting and adapting existing programmes to suit particular situations Evolution Monroe W. fundamentalist Christian rhetoric what would remain would be a framework that fundamentalists from other religions would find quite familiar and even comforting In other words the structure of the fundamentalist worldview and the psychology beneath it is pretty much the same across religions It is a controversial thing to say about Christian fundamentalism a thesis that has already proved contentious in the author s public appearances and one that is sure to generate considerable attention and passionate debate as the U S populace continues to divide into opposing camps     **Journal of the Tennessee Academy of Science** Tennessee Academy of Science,1996     **Religion and Public Education** Albert J.
