The Republic is a Socratic dialogue written by Plato around 380 BC concerning justice the order and character of the just city state and the just man It is Plato s best known work and has proven to be one of the world s most influential works of philosophy and political theory both intellectually and historically In the dialogue Socrates talks with various Athenians and foreigners about the meaning of justice and whether the just man is happier than the unjust man They consider the natures of existing regimes and then propose a series of different hypothetical cities in comparison culminating in Kallipolis a city state ruled by a philosopher king They also discuss the theory of forms the immortality of the soul and the role of the philosopher and of poetry in society The dialogue s setting seems to be during the Peloponnesian War In the first book two definitions of justice are proposed but deemed inadequate 14 Returning debts owed and helping friends while harming enemies are commonsense definitions of justice that Socrates shows are inadequate in exceptional situations and thus lack the rigidity demanded of a definition Yet he does not completely reject them for each expresses a commonsense notion of justice that Socrates will incorporate into his discussion of the just regime in books II through V At the end of Book I Socrates agrees with Polemarchus that justice includes helping friends but says the just man would never do harm to anybody Thrasymachus believes that Socrates has done the men present an injustice by saying this and attacks his character and reputation in front of the group partly because he suspects that Socrates himself does not even believe harming enemies is unjust Thrasymachus gives his understanding of justice and injustice as justice is what is advantageous to the stronger while injustice is to one s own profit and advantage 15 Socrates finds this definition unclear and begins to question Thrasymachus Socrates then asks whether the ruler who makes a mistake by making a law that lessens their well being is still a ruler according to that definition Thrasymachus agrees that no true ruler would make such an error This agreement allows Socrates to undermine Thrasymachus strict definition of justice by comparing rulers to people of various professions Thrasymachus consents to Socrates assertion that an artist is someone who does his job well and is a knower of some art which allows him to complete the job well In so doing Socrates gets Thrasymachus to admit that rulers who enact a law that does not benefit them firstly are in the precise sense not rulers Thrasymachus gives up and is silent from then on Socrates has trapped Thrasymachus into admitting the strong man who makes a mistake is not the strong man in the precise sense

and that some type of knowledge is required to rule perfectly However it is far from a satisfactory definition of justice
