Jesus of Nazareth inaugurated his earthly ministry with an announcement of the fulfilment of time as well as the nearness of the kingdom of God The Good News he preached came as a challenge to start a new way of living in our historical process In fact time and history are the most important parameters of human life The ongoing flow of time is what we call history and the entire historical process of the world is at the same time salvation history Humans are the makers of history and they are also being formed and transformed by this history The Church in continuing the saving mission of Christ tries to become the sacrament of God s presence in history and imparts to the world at large its healing and saving power It is from the Bible that we have to derive a comprehensive and holistic meaning of time and history and it is this salubrious understanding that should be the source of inspiration for all in approaching and celebrating the challenge of time and history in our times The various studies in this Time and History Biblical and Theological Studies try to throw light on some of the forgotten dimensions of time and history and invite men and women towards a more meaningful commitment to our historical process
