**The World** Karl Heim,1962      **Creation** Martin Israel,1989      Living with Risk and Danger Mikkel Gabriel

Christoffersen,2019-06-17 The contemporary world is marked by a sense of vulnerability not seen since the end of the Cold War Climate change migration and political instability make people feel the inherent vulnerability of human life Concepts of risk and danger are as relevant now as ever before for illuminating contemporary life Yet what changes in human lives if one interprets existence with risk and danger from the perspective of Christian faith Does the Christian symbol system offer orientation for human lives in a time of crisis Exploring the work of leading contemporary thinkers Danish theologian Mikkel Gabriel Christoffersen develops a rich and varied account of Christian doctrine that enables human beings to live with risk and danger in all vulnerability with gratitude courage and care for others Christoffersen develops an interdisciplinary approach that allows him to draw upon sociological and anthropological reflections on life lived whilst facing risks and dangers He brings these findings into conversation with Scandinavian Anglo American and German theologians of risk The result of his endeavor is a Trinitarian theology of risk that explores the extent to which one can consider the cross of Christ a risk of the incarnation rather than its very purpose Focusing on vital existential questions makes Christoffersen s considerations vibrant and relevant to scholars and lay people with an open minded intellectual interest in contemporary Christian theology

**The Ministry of the Missional Church** Craig Van Gelder,2007-08-01 In a time when churches are focusing on finding strategies and techniques to guarantee success a movement toward the missional church is emerging Missional churches are communities created by the Spirit with a unique nature and identity Purpose and strategies of the church are derivative dimensions the activities that flow naturally from the church that is focused on Spirit led ministry The Ministry of the Missional Church leads pastors ministry leaders and laypersons through three simple arguments the church is the church does what it is the church organizes what it does in order to make sense of how missional churches work And by focusing the work of the church as the work of the Triune God this unique book will change the way readers think about the church and the world

**Chalice Introduction to Disciples Theology** Peter Heltzel,2008

**God--The World's Future** Ted Peters,2015-08-01 God The World s Future has been a proven textbook in systematic theology for over twenty years Thoroughly revised and expanded this third edition is explicitly crafted to address our postmodern context and explains the whole body of Christian historical doctrine from within a proleptic framework Peters skillfully deploys this concept not only to organize the various theological areas or loci but also to

rethink doctrines in light of key postmodern challenges from ecumenism critical historical thinking contemporary science and gender and sexuality issues     *Myth and Knowing: An Introduction to World Mythology* Scott A. Leonard, Michael McClure, 2004 *Myth and Knowing* is by far the most comprehensive world mythology textbook The text reader format provides both jargon free discussions of current themes and thinkers in the ongoing scholarly conversation about myth and a broad selection of complete myths chosen for literary merit and the cultural sensitivity of their translations Rather than being genre driven the book emphasizes the psychological religious and cultural meanings of myth presenting these with the intent of fostering in students a love of literature     *The Theistic Conception of the World* B. F. Cocker, 1875     **Bible Exegesis and the Impending Judgment ...** Luther T. Cunningham, 1892     *God, Heaven, and Har Magedon* Meredith G. Kline, 2006-03-15 From the Author's Preface It could be this octogenarian's last book and there were several things I wanted to do One was to provide a primer in covenant theology Another was to make more accessible the gist of some of my previous biblio theological studies and to do so in a form serviceable to a wider readership than most of my publications The major move in this democratic direction was to enliven the analysis of the covenants by introducing the series of covenant administrations within the intriguing story line of Har Magedon the mountain of God Extending as it does from creation to consummation the tale of Har Magedon readily accommodates the total history of the covenants Moreover quite apart from such considerations the current state of secularized and dispensational versions of Armageddon fantastic fiction all makes a review of the biblical Har Magedon motif timely Though the covenants remain the theological foundation and heart of the matter by its adoption as our narrative framework Har Magedon becomes the dominant surface theme As we track this theme through the Scriptures we discover a recurring pattern an eschatological megastructure that appears in each of the typological world ages culminating respectively at mounts Ararat and Sinai Zion and then once again climactically in the antitypical New Covenant age This Har Magedon paradigm which shapes our telling of the covenantal tale consists in the following complex of elements establishment of a kingdom covenant by the Lord of Har Magedon a meritorious accomplishment by the covenant grantee triumphant in the Har Magedon conflict a common grace interim before the coming of the covenanted kingdom an antichrist crisis consummation of the Glory Kingdom through a last judgement victory of the covenant Lord in a final battle of Har Magedon If only in condensed digest fashion the present work is thus a comprehensive biblio theological survey of the kingdom of God from Eden to the New Jerusalem     **A Bibliography of the Works of Emanuel Swedenborg** Rev. James Hyde, James John George Hyde, 1906     **A Select Library of Nicene and Post-Nicene Fathers of the Christian Church: St. Hilary of Poitiers, John of Damascus, 1899** Philip Schaff, Henry Wace, 1899     **Quarterly Review of the Methodist Episcopal Church, South**, 1919     *The Age of Understanding; Or, Americanism, the Standard of World Nationalism* Leonard Stuart, 1922     *The Christian Doctrine of Sin* Julius Müller, 1885     *The Christian Century*, 1918     *The Oxford Handbook of Mystical Theology* Edward Howells, Mark A. McIntosh, 2020-02-25 The

Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon. It differs not only from psychological and anthropological studies of mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development. It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts. None of these perspectives is absent but the method here is more deliberately theological, working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today. Divided into four parts, the first section introduces the approach to mystical theology and offers a historical overview. Part two attends to the concrete context of sources and practices of mystical theology. Part three moves to the fundamental conceptualities of mystical thought. The final section ends with the central contributions of mystical teaching to theology and metaphysics. Students and scholars with a variety of interests will find different pathways through the Handbook.
