Creation And Reality:

Creation and Reality Michael Welker, Michael Welker's newest book opens new vistas on the theology of creation and challenges reigning notions of nature transcendence revelation and life in biblical studies philosophy and theology Based on his Warfield Lectures at Princeton the volume probes the classical creation accounts of Genesis 1 and 2 Welker exhumes a more dynamic concrete pluralistic sense of creation with accents on interdependence unrest and the text's astounding potential for critique of deeply ingrained conceptions and ways of thinking Welker then sketches surprising and creative interpretations of the text's most perplexing features the angelic world the image of God in humans dominion sin and the fall

The Creation of Reality Jan Stuart Torgerson, Pacific School of Religion (Berkeley, Calif.), 1975 New Creation Reality Olufemi Monehin, 2010-10-05 Walking in the reality of the New Creation COSMIC MECHANICS-How We Create Reality With Zero-Point and Quantum Waves Fred Aeilts, 2007-06-20 Recent discoveries in Quantum Mechanics have proved that there is no discrete particle or solid chunk of anything in the whole Physical Universe It is all standing waves arising from the seething zero point field created by cosmic beings like you and me The properties of mass inertia charge and gravity are the result of space resonances produced by zero point scalar waves This book with color pictures details the theory models and mathematics of zero point scalar waves gravity magnetism biophotonics the creation of 200 trillion year old orbs that we take with us between bodies the source of evil the basis of vibrational healing and psychic abilities who you really are how hypnotism works how your personal orb affects you our prison planet and how to photograph orbs Your orb is an insidious and diabolical quantum computer that disables you and ruins your lives If you want to know how things work in this and other universes read this book *Metaverse* Joseph Kahuho Gatoto, 2020-06-18 The book is a glimpse into the metaphysical reality from a Theological and realistic perspective based on the book of Genesis with special attention to Genesis 1:1 It is a second in a series containing two books at the moment The Pneumatic Nature of Reality and itself To fully grasp this one must read the first of the series on Reality The meta verse contains two realities with one Primary reality being with two dimensions the physical and the spiritual with both existing in the same frequency but in different waves within the frequency There is a seeing into scripture to behold the realities therein as we aim to understand what we believe and believe to understand and understand to believe **The Creation of Reality** Kessler Frey, 1986 *The British Controversialist and Literary Magazine*, 1871 Reality, 1928 *The Nature and Purpose of Reality* Gary O Nickolaus, 2020-10-04 This book attempts to interpret the nature of reality as it is concurrently described by quantum physics but its concern is that which cannot be described with physics or mathematics it is about the first fraction of a second after the big bang when all physics and mathematics breaks down a big bang that was not a onetime occurrence but is rather an ongoing activity it is about the Planck length and Planck time where no measurements can be taken no observations can be made and deductive reasoning and subconscious awareness is our only means of understanding It is about the dual nature of

reality described in Quantum Physics and interpreted by Theology It attempts to define how the finite and infinite combine to complete the purpose of the Absolute Reality of the Singularity It attempts to describe the nature of reality as a mosaic in which all the concepts fit together to form an Absolute Reality that has meaning and that has purpose where God is not an abstract principle or a separate being but is rather an integral part of the nature of Physics which is the nature of God It attempts to explain the concepts that have been demonstrated by scientific experimentation in a way to match these observations with that which we have previously assigned to theology and God All incorporated as the nature of existence and as such integral parts of Quantum Physics and Theology Physics is the study of the nature of our spacetime however Quantum Physics describes limits beyond which our science and math have no meaning The physics of spacetime is related to the physics of the finite While our physics can only describe with certainty the nature of spacetime extrapolations can be made as to the nature of the quantum wave as it exists in the infinite Singularity God cannot be separated from the physics for He is the Physics He is the nature and purpose of reality The dual nature of the universe demonstrated in quantum physics describes spacetime as a projection of the quantum probability wave With the actualization of the probability wave into spacetime all that we know is created How is this spacetime created How does the creation of spacetime form the attributes of this universe These are the questions Quantum Physic attempts to answer but more importantly what is the purpose of spacetime and what is the function of conscious beings within that purpose That question has been regulated to philosophy and theology but the answers are demonstrated in physics

Reality Burnett Hillman Streeter,1926 **The Pneumatic Nature of Reality** Joseph Kahuho Gatoto,2020-05-02 Everything that is has a substance and an essence and the substance has an essence that is with a substance to the most indivisible part of it In this book I examine what is and what is in what is but cannot be seen and is not seen by the naked eye The book therefore offers an in depth look into the nature of reality before during and after creation aimed at developing an understanding of the manner in which creation became is according to its trichotomous nature and the relationship inherent in the three realities that are with each being examined by itself and how it relates to the others as per the statement In the beginning God created the heavens and the earth Genesis 1 1 NKJV The book aims at seeing into creation so that one can see creation rather than seeing creation only The means of travel in the realms across the realms and between the realms is looked into including how things are as they are and how creation remains and by what power it remains
