Creation Regained Biblical Basics For A Reformational Worldview:

Creation Regained Albert M. Wolters, 1985 *Creation Regained* Albert M. Wolters, 1985 *Living in God's Two Kingdoms* David VanDrunen, 2010 VanDrunen uses the two kingdoms theory to demonstrate how God's response to the civil and spiritual kingdoms inform an active yet critical Christian engagement with culture By the Waters of Babylon Scott Aniol, 2019-03-21 A guide to biblically shaped worship which has the greatest missional impact in a post Christian culture By the Waters of Babylon examines a relationship between worship culture and evangelism that is centered in a desire for biblical fidelity rather than cultural relevance Imagine how the Hebrews felt during their years of captivity in Babylon How could they sing the songs they once sang in the splendor of Jerusalem now that they sat in exile Christian worship in the West faces many of the same challenges as this tragic account of Israel's captivity By all accounts Christendom is dead and unbiblical beliefs have progressively permeated Western thought expectations and culture So how should churches respond to this seismic shift in their relationship with an increasingly post Christian culture while still following the biblical mandate to reach that culture with the gospel of Jesus Christ By the Waters of Babylon will help Christians wrestle through this critical issue of the relationship between Christian worship and evangelistic witness especially in the context of an increasingly hostile culture The author demonstrates that biblically regulated gospel shaped corporate worship that communicates God's truth through appropriate cultural forms will have the most missional impact in a post Christian context

Worldview David K. Naugle, 2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers The Bible and the University Zondervan, 2009-09-03 It is well known that the Western university gradually evolved from the monastic stadium via the cathedral schools of the twelfth century to become the remarkably vigorous and interdisciplinary European institutions of higher learning that transformed Christian intellectual culture in the thirteenth and fourteenth centuries It is equally well known that subsequent disciplinary developments in higher education including the founding and flourishing of many of the most prestigious of North American universities owe equally to the Protestant and perhaps particularly Calvinist influence But that the secularized modern university that descended from these developments is now in something of an identity crisis is becoming widely and often awkwardly apparent The reason most

often given for the crisis is our general failure to produce a morally or spiritually persuasive substitute for the authority that undergirded the intellectual culture of our predecessors. This is frequently also a reason for the discomfort many experience in trying to address the problem for it requires an acknowledgement at least that the secularization hypothesis has proven inadequate as a basis for the sustaining of coherence and general intelligibility in the university curriculum. Nowhere is this more apparent than in the disciplines of biblical studies and theology which once were the anchor or common point of reference for theological thought but which are now both marginalized in the curriculum and internally divided as to meaning and purpose even where the Church itself is concerned. In this final volume of the Scripture and Hermeneutic Series a group of distinguished scholars have sought to understand the role of the Bible in relation to the disciplines in a fresh way. Offered in a spirit of humility and experimentally the essays here consider the historic role of the Bible in the university, the status of theological reflection regarding Scripture among the disciplines today, the special role of Scripture in the development of law, the humanities and social sciences and finally the way the Bible speaks to issues of academic freedom, intellectual tolerance and religious liberty. Contributors include Dallas Willard, William Abraham, Al Wolters, Scott Hahn, Glenn Olsen, Robert C. Roberts, Byron Johnson, Robert Cochran Jr., David I. Smith, John Sullivan, Robert Lundin, C. Stephen Evans, David Lyle Jeffrey.

Natural Law and the Two Kingdoms David VanDrunen, 2010. Conventional scholarship holds that the theology and social ethics of the Reformed tradition stand at odds with concepts of natural law and the two kingdoms. But David VanDrunen here challenges that status quo through his careful thoroughgoing exploration of the development of Reformed social thought from the Reformation to the present. from publisher description

Reformational Theology Gordon J. Spykman, 1992. Following the Biblical story line of creation, fall, redemption, consummation, Spykman's new paradigm systematics represents a notable revision of the traditional loci method. Spykman has reordered the basic Christian dogmas in a bold attempt to overcome the rationalist scholastic influences inherent in the older method.

Renewing Biblical Interpretation Craig G. Bartholomew, Colin J. D. Greene, Karl Möller, 2000. This book seizes the opportunity to reassess the discipline of biblical studies from the foundation up and forges creative new ways for reopening the book for our culture.

Anatomy of Reformation B. J. Van der Walt, 1991.

Creation Science as a Rhetorical Invention Andrea Dolan, 1987.
