Kostis, 2024-08-19 This contributed volume explores the relationships between politics economics and evaluation With a special focus on Greece it addresses how evaluations within different sectors impact policymaking and explains what this means for sustainable development Featuring interdisciplinary perspectives on economic policy evaluation for inclusive and future forward public policy the chapters rethink and reform evaluation to meet modern economic challenges The book outlines the concept and principles of resource allocation in evaluation offering a framework for economic transformation It highlights the role of evaluation in achieving sustainable development It provides a new way to measure the quality of public policy governance and economic policy

Civilian Oversight of Policing Andrew Goldsmith, Colleen Lewis, 2000-11-10 How the police are policed is no longer just a domestic issue The involvement of police and other security forces in systematic abuses of human rights in many developing countries as well as in so called developed countries has placed the control of police on a number of international agendas More and more countries are experimenting with different forms of police accountability and many are turning to civilian oversight bodies in an attempt to improve the process This book examines recent experiences with and prospects for civilian oversight It looks at how this relatively new method of police accountability has been interpreted and implemented in a wide range of jurisdictions around the world While looking at recent experiences in countries which have used the civilian oversight process for some years the

United States of America United Kingdom Northern Ireland and Australia it also looks at recent attempts to establish civilian oversight bodies in South Africa Israel Central and South America and Palestine Some chapters explain how in several of these countries oversight of police conduct is a fundamental governance issues and relates to concerns about democratisation and rebuilding civil society Other chapters deal with the complex issue of how to evaluate public complaints mechanisms and the political conditions that enable or frustrate the introduction and maintenance of effective civilian oversight

Accounting & Business ,1999 **Ethics and Auditing** Tom Campbell,Keith A. Houghton,2005-06-01 Ethics and Auditing examines ethical challenges exposed by recent accounting and auditing lapses through a study of interconnected moral legal and accounting issues The book aims to engage a broad readership in the discussion of audit failure and reform With its range of intellectual and practical perspectives Ethics and Auditing provides critical analyses of auditor independence conflicts of interest self regulation the setting and enforcing of auditing standards and ethics education

The Social Function of Accounts John Flower,2017-05-25 Accountancy as presently practised is tied to the paradigm of modern financial capitalism with its reliance on market solutions and the maximization of the firm s profits which are the fundamental causes of most these problems The Social Function of Accounts argues that accountancy as currently organized and practised is failing society both in Britain and in the world as a whole Examining the current problems afflicting the world financial crises and instability global warming degradation of the environment growing inequality this book asks the question what contribution does accountancy make to the solution of these problems The book argues that the accountancy profession does not serve the public interest notwithstanding its claim to this effect The Social Function of Accounts argues that the moral responsibility of the accountant is analysed with reference to the principal theories of ethics continuing that the individual accountant has a moral responsibility to consider the impact of his actions on other people and on society as a whole This responsibility is then analysed in a series of chapters dealing with four specific aspects of the matter Distributive Justice Sustainability Financial reporting the Accountancy Profession Concluding with a call for the accountancy profession to adopt a new ethic of service to the public The Social Function of Accounts redraws the boundaries of current accounting literature and will be vital reading for academics researchers and policy makers in accounting and related disciplines

Comparative International Accounting Christopher Nobes,Robert Henry Parker,2002 Now in its seventh edition this successful text offers a comprehensive yet coherent examination of the international dimensions of financial accounting and reporting Most of the chapters are written by the two main authors but there are several contributions from leading international practitioners and academics Part I gives an overview of the causes and nature of international differences in accounting and financial reporting Part II examines individual countries and includes studies of the UK the US the Netherlands France Germany Japan Australia Canada Singapore Scandinavia Italy Spain South Korea Central and eastern Europe and China Part III takes a comparative look at four major financial reporting issues Part IV analyses four issues of

international analysis and management The text has been thoroughly revised and updated It retains the structure of the last edition but incorporates the following new features New chapters on International Accounting Standards Chapter 6 and Liabilities Chapter 15 The structure and content of the main country chapters have been revised and standardized to present a more cohesive comparison Each country chapter contains a list of differences from international standards Learning objectives have been introduced at the start of each chapter and extra questions have been added to several chapters Comparative International Accounting is primarily intended for students at both undergraduate and postgraduate level taking courses in comparative and international accounting Christopher Nobes is PricewaterhouseCoopers Professor of Accounting at the University of Reading UK He is Vice Chairman of the accountancy committee of the Federation des Experts Comptables Europeens and was a UK representative on the board of the IASC from 1993 to 2001 Robert Parker is Emeritus Professor of Accounting at the University of Exeter UK He was formerly editor of the journal Accounting and Business Research

Journal of Transnational Law, 2001 *Towards a Cognitive Mode in Global Finance* Torsten Strulik, Helmut Willke, 2006 The global finance system has been the subject of hot debate for several years Major players such as the International Monetary Fund and the World Bank have come under fire for their financial practices while the role of epistemic authorities including rating agencies remains unclear This book systematically analyzes the role knowledge plays in global finance reform by considering its influence in the empirical areas of finance banking accounting and bond rating for example As the contributors demonstrate current institutional management strategies reflect a shift toward cognitive or learning based modes of managing financial and political risks and this cognitive thinking has its own consequences for the global

marketplace

Crime, Compliance and Control Doreen J. McBarnet, 2004 Law is a double edged sword It is not just an instrument for implementing social policy social control and social rights but an instrument in the hands of those with the motivation power and economic resources to wield it for undermining them This topical volume presents seminal socio legal essays encompassing a diverse range of issues including criminal justice tax avoidance and corporate finance to fully explore the topics of crime compliance and control

Unshackling Accountants David Roderic Myddelton, 2004 Looks at the history of and the arguments for and against detailed accounting standards This work concludes that while there may be a case for the accounting profession to develop voluntary guidelines the imposition of rigid standards is likely to prevent the art of accounting from evolving

Redesigning Financial Regulation Justin O'Brien, 2007 At the height of the 1990s boom Jack Grubman one of the most successful analysts in Wall Street proclaimed what used to be conflicts of interest are now synergies This myopia contributed dramatically to the elevation of a culture in which greed was deified oversight denigrated and misfeasance justified Since the fall of the markets and the implosion of confidence in the American corporate business model one man has proved instrumental in deconstructing the rhetoric of the 1990s Eliot Spitzer the combative Attorney General of New York In the process his innovative application of state law has reconfigured the governance of Wall Street Over the past three years the pursuit of transparency and accountability in the structure of the markets has propelled Spitzer to the forefront of regulatory policy His investigations into tainted analyst research the mutual funds industry the governance of the New York Stock Exchange and the insurance industry have focused attention not just on corrupted individuals but also the complicity of the financial structure itself Spitzer exploited the inherent conflicts of interest to the full forcing regulators to adopt a much more proactive approach and creating a national platform for his own wider political ambitions Now holding the Democratic nomination for the Governorship of New York Spitzer has begun a path for higher national office This groundbreaking book features exclusive access with many of the key actors in these changes to the governance of Wall Street It examines how Eliot Spitzer exploited gaps in the regulatory framework to capture the corporate reform agenda and explores the implications of his actions on policy formation and recalibration Key incidents include changing the terms of reference governing analyst research the defenestration of Dick Grasso s tenure over the NYSE which is now being heard in state court in New York and the battles for control between the former Chairman of the Securities Exchange Commission Harvey Pitt and Spitzer The book details not only the contested contingent and interdependent connections between the American political and financial systems but reveals how Spitzer s manipulation of those connections have proved instrumental in enhancing his own wider political ambitions

Coercion to Compromise Mary E. Vogel, 2007 Plea bargaining is one of the most striking features of American courts The vast majority of criminal convictions today are produced through bargained pleas Where does the practice come from Whose interests does it serve Often plea bargaining is imagined as a corruption of the court during the post World War II years paradoxically rewarding those who

appear guilty rather than those claiming innocence Yet as Mary Vogel argues in this pathbreaking history plea bargaining's roots are deeper and more distinctly American than is commonly supposed During the Age of Jackson amidst crime and violence wrought by social change the courts stepped forward as agents of the state to promote the social order Plea bargaining arose during the 1830s and 1840s as part of this process of political stabilization and an effort to legitimate institutions of self rule accomplishments that were vital to Whig efforts to restore order and reconsolidate their political power To this end the tradition of episodic leniency from British common law was recrafted into a new cultural form plea bargaining that drew conflicts into the courts while maintaining elite discretion over sentencing policy In its reliance on the mechanism of leniency the courts were attempting a sort of social triage sorting those who could be reclaimed as industrious and productive citizens from marginals and transients The worthy often paid fines and were returned to their community under the watchful eyes of their intercessors and that most powerful web of social control that of everyday life Created during a period of social mobility plea bargaining presumed that those with much to lose through conviction would embrace individual reform Today when many defendants who come before the court have much less in the way of prospects to lose leniency may be more likely to be regarded with cynicism as an act of weakness by the state and plea bargaining may grow more problematic **Hobart Paper**, 2004 *Financial Information Analysis* Philip O'Regan, 2006-10-06 Accounting information is one of the most potent sources of influence and power in any society In a world in which more and more people have to deal with complex financial information and many individuals acquire shares this importance can only increase This book reflects these developments **Australian Journal of Legal Philosophy**, 2001
