Creative Crisis A Spiritual Guide For Midlife Men:

Subject Guide to Books in Print, 2001 *Publishers Weekly*, 1990 **Integral Relationships: A Manual for Men** Martin Ucik, 2010-08 *Broken Dreams* Mark Jackson, 2021-06-10 The midlife crisis has become a cliché in modern society. Since the mid twentieth century the term has been used to explain infidelity in middle aged men, disillusionment with personal achievements, the pain and sadness associated with separation and divorce, and the fear of approaching death. This book provides a meticulously researched account of the social and cultural conditions in which middle aged men and women began to reevaluate their hopes and dreams, reassess their relationships, and seek new forms of identity and fresh pathways to self satisfaction. Drawing on a rich seam of literary, medical, media, and cinematic sources, as well as personal accounts, *Broken Dreams* explores how the crises of middle aged men and women were shaped by increased life expectancy, changing family structures, shifting patterns of work, and the rise of individualism. [The Resource Guide for Christian Counselors](#) Douglas R. Flather, 1995 This referral directory gives the user immediate access to essential up to date Christian counseling resources. It is organized alphabetically under 46 general topics that encompass counseling issues, professional issues, and educational issues. [Magill's Medical Guide: Factitious disorders](#) Salem Press, 1995 [Mentor](#) Laurent A. Daloz, 2012-09-13 With a new introduction and afterword, this revised second edition is a practical, engaging exploration of mentoring and its power to transform learning. Filled with inspiring vignettes, *Mentor* shows how anyone who teaches can become a successful mentor to students. Topics covered include adult learning and development, the search for meaning as a motive for learning, education as a transformational journey, how adults change and develop, how learning changes the learner, barriers and incentives to learning and growth, and guiding adults through difficult transitions. **Balancing the self** Mark Jackson, Martin D. Moore, 2020-03-05 This electronic version has been made available under a Creative Commons BY-NC-ND open access license. Many health, environmental, and social challenges across the globe, from diabetes to climate change, are regularly discussed in terms of imbalances in biological, ecological, and social systems. Yet as contributions to this collection demonstrate, while the pressures of modernity have long been held to be pathogenic, strategies for addressing modern excesses and deficiencies of bodies and minds have frequently focused on the agency of the individual: self-knowledge and individual choices. This volume explores how concepts of balance have been central to modern politics, medicine, and society, analysing the diverse ways in which balanced and unbalanced selfhoods have been subject to construction, intervention, and challenge across the long twentieth century. Through original chapters on subjects as varied as obesity, control, fatigue, and the regulation of work, and the physiology of exploration in extreme conditions, *Balancing the self* explores how the mechanisms and meanings of balance have been framed historically. Together, contributions examine the positive narratives that have been attached to the ideals and practices of self-help; the diverse agencies historically involved in cultivating new, balanced selves; and the extent to which rhetorics of empowerment and responsibility have been used for a variety of

purposes from disciplining bodies to cutting social security With contributions from leading and emerging scholars such as Dorothy Porter Alex Mold Vanessa Heggie Chris Millard and Natasha Feiner *Balancing the self* generates new insights into emerging fields of health governance subjectivity and balance An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence [The Cambridge Guide to Literature in English](#) Dominic Head,2006-01-26 This illustrated and fully updated Third Edition of *The Cambridge Guide to Literature in English* is the most authoritative and international survey of world literature in English available The Guide covers everything from Old English to contemporary writing from all over the English speaking world There are entries on writers from Britain and Ireland the USA Canada India Africa South Africa New Zealand the South Pacific and Australia as well as on many important poems novels literary journals and plays This new edition has been brought completely up to date with more than 280 new author entries most of them for living authors The general reader will find it fascinating to browse and to discover many new writers and works while students will find it an invaluable resource for daily use This is a unique work of reference for the twenty first century that no reader or library should be without **The Hidden History Of Coaching** Wildflower, Leni,2013-03-01 This book draws links between early innovative thinkers and the ideas and philosophy of coaching all to enhance coaching practice in action
