*Creative Disarray* Ronald E. Osborn, 1991 This book traces twelve classical models of ministry from their historical roots to the present pb The Chaos Advantage: Harnessing Uncertainty for Creative Growth Vicky Baker, Most of us try to avoid chaos But what if uncertainty wasn't the enemy of creativity what if it was its greatest ally In *The Chaos Advantage* Vicky Baker reveals how unpredictable moments messy challenges and unexpected detours can actually fuel innovation Drawing on stories from creative pioneers practical exercises and psychological insights she shows how to embrace disorder as a source of energy flexibility and bold new ideas Instead of resisting the unknown you'll learn to lean into it turning setbacks into breakthroughs confusion into clarity and risk into resilience For anyone who wants to grow braver think bigger and find inspiration in the unexpected *The Chaos Advantage* is your guide to thriving in the mess and discovering the creative power hidden inside it **Preacher and Cross** André Resner, 1999 Numerous books are available on the meaning and methods of preaching but nothing has been written that specifically addresses the character of those who would preach *Preacher and Cross* helps fill this gap in homiletic studies by examining the relationship between the message of Christian proclamation and the preacher with specific attention to ministerial character and the preacher's use of self in sermons Andr Resner discusses the two dominant approaches to homiletics the rhetorical approach typified by Augustine and the theological approach typified by Barth and then compares and contrasts these approaches to what the apostle Paul says on the issue Essential reading for those involved in ministry this work offers invaluable insights into the relationship between preachers and the message they proclaim One Gospel Many Ears Ronald J. Allen, Joseph R. Jeter, Every time a congregation gathers for worship many different people from different points in life with different needs and perspectives come together each refracting messages through their own lenses Each person processes communication in ways that are influenced by age gender race personality type ethnicity education and social and economic background Jeter and Allen explore how these factors affect the ways in which members of the congregation receive and process sermons and how the preacher can optimize the opportunity for each to hear and understand the gospel and one another Organizational Behavior John R. situates contemporary post structuralist ethnic and feminist theory in relation to theater and the dramatic text with specific reference to Derrida's concept of the margin. Subsequent chapters apply this thinking to specific texts including *Pandering to the Masses*, *Garbage*, *The City and Death*, *The Chickencoop Chinaman*, and *Giving Up the Ghost*. A concluding chapter summarizes these readings and suggests how they might be useful for theater practitioners. The theoretical issues covered are central to both contemporary critical discourse and theatrical practice. By investigating the notion of margins of the places in which the dramatic text begins to unravel its ontotheological heritage, MacDonald shows how the possibility for staging philosophy's Other emerges. He makes clear however that staging this Other is not simply a concern of philosophy; instead, he raises the possibility of a heterogeneous theater that would accentuate the historical and political background of a particular group while at the same time making room for competing voices. *Theater at the Margins* argues that this heterogeneity of texts could create a theater that would be responsive and responsible to a world no longer defined by a particular center.
