

Sample Business Plan

Welcome to BizPlanBuilder®. Here is a sample of the complete business plan text used for the Angel/VC plan. (It's the most comprehensive version designed to pitch a new idea to the most sophisticated investors.)

As you'll see, there is more than enough to use. If the text/concept fits your business model, use it, if not, you can discard what you don't require.

The plan for the extraordinary business

JIAN's philosophy is to give you ideas and content from the best business plans cross-pollinated from every industry vs. lots of industry-specific examples that you must undo (unless you are starting an ordinary business...) Investors are rarely industry-specific, but they do understand business, profits, growth, value and return on investment. Speak their language correctly and you will get funded.

Variables like [Company], [Owner/Founder] are automatically replaced from the data file. [Other variables in brackets like this] include example text that give you ideas and that you will edit.

Although this is a protected .pdf of the text provided within BizPlanBuilder (you cannot copy any text or print it), you can read it now and edit it using the BizPlanBuilder application.

«» Expert comments throughout, in green, can be turned on/off with an icon in the BizPlanBuilder application – in this sample, they add about 40 pages – it's as if we're sitting next to you all the way. When you turn these off they disappear completely and the black text rolls up. They won't print.

At the end of this narrative sample, we include a sample of the PowerPoint "investor pitch" slideshow.

BizPlanBuilder also includes **54 supporting documents** important for completing the process of raising money – [you can see the list here](#).

Investors ask a lot of questions – They say they want a 2-page business plan, but I think you will agree that few people will write you a check without learning more... BizPlanBuilder has it.

Crafting Your Company Strategy Libri Di Gio,2023-03-02 I ll tell you two things a business plan is and one it isn t A business plan can be a formal document you hand to some organization ninvestor or keep for internal company use A business plan is also the strategy for how you will execute every part of your business This doesn t have to be a written plan You can plan your business strategy in your mind What s important is that you have a viable and quality plan of action before you start your business and not just plunge into a business blindly Now let me tell you what a business plan isn t Don t think about it as a prerequisite to starting a business like a homework assignment that must be completed and handed in before you can start It also isn t something you have someone else create for you because you aren t sure how to write it And it certainly shouldn t be your excuse to procrastinate on the actual work you need to do to start your business I like to define the business plan as a cohesive strategy for your business that you may plan in your mind or in a written document that covers each major component of your business how those major components will work well with one another and your plan for executing those strategies If you are not sure how to create an effective business plan and you are a first time entrepreneur learning how to plan your business is a very good first step Learning empowers you long term You will be able to use what you learn about planning a business in your current business and every new idea in the future As an entrepreneur you must develop the habit of always learning and improving your skills and learning the skill of business planning should be high on a first time entrepreneur s priority list It might also help to get coached on planning your business so you can learn faster by getting guidance from an experienced business person while you both work on your business plan together But don t just pay someone to write a business plan for you just to feel good that you have it You must understand why every detail of your plan is in place In an effort to make this book more helpful as one of the extras in this book I can provide feedback on your business idea or business plan Since I can t read everyone s full business plan please wait until you get further in the book and learn how to create the simple 3 sentence business plan Send that to me and I ll be happy to give you feedback and suggestions
