Sustainable Career Development in the Turbulent, Boundaryless and Internet Age Shih-Chih Chen, Yongrok Choi, Athapoll Ruangkanjanases , Yin Ma, 2024-07-22 With the impact of globalization and intensification of information technology the ideas and practices of enterprise management are also changing rapidly nowadays A practice that was incompletely unheard of yesterday may soon become a model for everyone to learn from tomorrow The development of information technology has blurred the boundaries between work and non work and employees today have more options to work from home At the same time the family structure has also become more diversified with different types of income structures bringing many possibilities for work and family care models In addition the government's social policies such as school to work transitional regulations and the extended retirement age suggest that people today may face a quite different labor market situation compared to other generations As individuals are facing longer and more complicated working life it is very important to

ensure their long term employability by creating a healthy and successful career **North Carolina Reports** North Carolina.
