comparative connections and ideas from one area to another With its emphasis firmly on postmodernism in practice the book contains questions designed to help readers understand and reflect upon a variety of positions within the following areas of contemporary culture philosophy and cultural theory architecture and concepts of space visual art sculpture and material culture popular culture and music film video and television and the social sciences Fiction in the Quantum Universe Susan Strehle,1992 In this outstanding book Susan Strehle argues that a new fiction has developed from the influence of modern physics The changed physical world appears in both content and form in some of the most ambitious recent fiction which Strehle names actualism after the observations of Werner Heisenberg Within that framework she explores the meditations on actuality in Pynchon Coover Gaddis Barth Atwood and Barthelme Although important recent narratives diverge markedly from realistic practice this book claims that they do so in order to reflect more acutely on what we now understand as real According to Strehle the actualists balance attention to questions of art with an engaged meditation on the external actual world Reality is no longer realistic in the new physical or quantum universe it is discontinuous energetic relative statistical subjectively seen and uncertainly known all terms taken from the new physics Actualist fiction is characterized by incompletions indeterminacy and open endings unsatisfying to the readerly wish for fulfilled promises and completed patterns Gravity's Rainbow for example ends not with a period but with a dash Realistic novels typically construct solid believable particularized environments but actualist texts combine the plausible and the strange Thus a recognizable campus like Berkeley or Cornell has a suburb called San Narciso or Zembla Strehle makes the point that these innovations in narrative form reflect in allied ways upon twentieth century history politics and science Arguing that the perception of a changed reality reaches into philosophy psychology literary theory and other areas of inquiry the book advances a pluralistic view of the meaning of contemporary fiction A final chapter extends the discussion beyond the North American borders to African South American and European texts suggesting a global community of writers whose fiction belongs in the quantum universe Atlantis ,1987 **Positive Negatives** Crerar Douglas,1991 Building on the ethical monism of Augustus Hopkins Strong Positive Negatives develops a new theory of Christianity as a dualistic non dualism In depicting the conflict between good and evil as a dualism in which contraries are antithetical Christianity draws on the ancient symbols of literary comedy while in depicting all other polarities as dualities in which contraries are complementary Christianity draws on tragic symbols As an effort to liberate duality from dualism Christianity incorporates tragic non dual motifs with similarities to Far Eastern traditions in its dualistic Near Eastern narrative of God's comedic triumph over evil Arguing that its theory gives new insights into the relation between Renaissance poetry and Reformation theology the book includes a case study of Richard Hooker and Shakespeare's The Winter's Tale along with discussions in a comparative religions context of Augustine al Ghazali Luther Karlstadt Calvin A H Strong H Richard Niebuhr Paul Tillich Keiji Nishitani Gadjin Nagao Northrop Frye and Thomas F Torrance Gay Skins Murray Healy,1996 Inarticulate aggro loving and hard as fuck the mythical figure of the

skinhead has embodied fears and fantasies about straight white working class masculinity for nearly thirty years Dressed in standard issue flying jacket crotch clutching Levis and shiny DM boots he was destined for homoeroticism Through accounts from straight skinhead subculture contemporary news coverage subcultural theories and the memories of gay skins in the 1960s 1970s and 1980s Healy puts the boot into those myths of masculinity and challenges assumptions about class queerness and real men Tracing the historical development of the gay skin from 1968 he assesses what gay men have done to the hardest cult of them all and how it has transformed the gay scene **Ms. Magazine** Gloria Steinem, Robin Morgan, Joanne Edgar, Patricia Theresa Carbine, Nina Finkelstein, Letty Cottin Pogrebin, 1972 **Lesbian Gothic** Paulina Palmer, 1999 Tracing the growth of lesbian Gothic fiction over the 25 years since the advent of the Women s Movement and Gay Liberation in the 1970s this text discusses a wide selection of novels and stories contextualizing and re evaluating them in the light of changing currents in lesbian queer culture and politics The figure of the lesbian frequently portrayed in a homophobic misogynistic light has long been a standard component of popular Gothic fiction and film The author argues however that in more contemporary fiction motifs and modes of fiction with Gothic associations such as the witch the vampire the spectral visitor and the Gothic thriller have been appropriated by writers adopting a lesbian viewpoint to articulate the transgressive aspect of lesbian sexuality and existence
