Craft Architects:

The Craft Architects Margaret Richardson, 1983 **Craft Theory and Contemporary Architecture** Grant Alford, 2025-05-28 This book offers a comprehensive exploration of craft theory in relation to contemporary architecture Craft is an old and familiar idea but the line between craft and art or craft and mere manufacturing for example is notoriously hard to describe In architecture a similarly blurred line between the design process on the one hand and the physical making of buildings on the other lies at the center of various debates about what it means to do architecture The growth and development of craft theory in recent years suggest new insights into these architectural debates but situating the meaning of craft within architecture within today's technological landscape is a complex problem Alford responds to this challenge by collecting various narratives from craft theory and other fields and discerning among them new lenses through which to view contemporary architectural practice Episodes from this expanded view of craft in architecture go beyond predictable accounts of Ruskin and Morris to envision new models of practice new ways of engaging other building professionals and new ways for architects to understand their own labor and the nature of how and what kinds of things they themselves craft Architecture is changing and within the ongoing story of craft explored in this book are new and surprising ways to understand design and construct the built environment Written for students and scholars this book challenges and extends the legacy of craft thinking in architecture Architect, 1910 Journal of the Society of Architects Including the Proceedings, 1926 Architecture, 1916 **Architectural Research Addressing Societal Challenges Volume 2** Manuel Jorge Rodrigues Couceiro da Costa, Filipa Roseta, Susana Couceiro da Costa, Joana Pestana Lages, 2017-09-19 The EAAE ARCC International Conference held under the aegis of the EAAE European Association for Architectural Education and of the ARCC Architectural Research Centers Consortium is a conference organized every other year in collaboration with one of the member schools universities of those associations alternatively in North America or in Europe The EAAE ARCC Conferences began at the North Carolina State University College of Design Raleigh with a conference on Research in Design Education 1998 followed by conferences in Paris 2000 Montreal 2002 Dublin 2004 Philadelphia 2006 Copenhagen 2008 Washington 2010 Milan 2012 and Honolulu 2014 The conference discussions focus on research experiences in the field of architecture and architectural education providing a critical forum for the dissemination and engagement of current ideas from around the world *From Craft to Profession* Mary N.
