Craft Of Translation:

The Craft of Translation John Biguenet, Rainer Schulte, 1989-12-15 Written by some of the most distinguished literary translators working in English today these essays offer new and uncommon insights into the understanding and craft of translation The contributors not only describe the complexity of translating literature but also suggest the implications of the act of translation for critics scholars teachers and students The demands of translation according to these writers require both comprehensive scholarship in preparing to translate a text and broad creativity in recreating the text in a new language Translation thus becomes a model for the most exacting reading and the most serious scholarship Some of the contributors lay bare the rigorous methods of literary translation in comparisons of various translations of the same piece some discuss the problems of translating a specific passage others speak about the lessons learned over the course of a career in translation As these essays make clear translators work in the space between languages and in so doing provide insights into the ways in which a culture makes the world verbal Exemplary readers both of authors and of their individual works the translators represented in this collection demonstrate that the methodologies derived from the art and craft of translation can serve as a model to revitalize the interpretation and understanding of literary works Readers will find the opportunity to look over the shoulders of the translators gathered together in this volume an exciting and surprising experience The act of translation emerges both as a powerful integration of linguistic semantic cultural and historical thinking and as a valuable commentary on how we communicate both within a culture and from one culture to another

Multiple Masks Maureen A. Carr, 2002-01-01 In Multiple Masks Maureen A Carr studies Igor Stravinsky's creative process for Oedipus Rex Apollo Pers phone and Orpheus through his musical sketches and other documents

scenarios librettos correspondence reviews and philosophical commentaries as well as previously uncited sources for Stravinsky's book *Poetics of Music*. A clear explanation of Stravinsky's compositional techniques within a broad cultural context emerges for each of these four significant works. Carr concludes that Stravinsky used Greek myths as filters for certain poetic ideas and musical techniques that he developed in his earlier works. At the same time the mythological story lines provided him with the objective stance that he was seeking in these neoclassical works.

Translation and Creativity
Manuela Perteghella, Eugenia Loffredo, 2007-11-01. *Translation and Creativity* discusses the links between translation and creative writing from linguistic, cultural and critical perspectives through eleven chapters by established academics and practitioners. The relationship between translation and creative writing is brought into focus by theoretical, pedagogical and practical applications complemented by language-based illustrative examples. Innovative research and practice areas covered include ideas of self-translation and the spaces of reading, mental black boxes and cognition, and the book introduces new concepts of transgeneric translation, pop translation and orthographical translation.
