Craig Ellwood's career was extensive including over one hundred documented buildings. Houses were Ellwood's beginning and the origin of his experimentation. And since he designed domestic architecture up to the later years the houses provide a comprehensive view of his career. Ellwood's residential work also benefited from the experimentation in his commercial architecture. The selection has been marked by the state of conservation of the houses. Fortunately the number of them in good shape represent the breadth of Ellwood's career. The publication of all this material rather than undermining the tale that Ellwood told of himself demonstrates the high standard he maintained throughout his production.

Craig Ellwood Clarendon Texas 1922 was one of the architects who during the 50s took part alongside Charles Eames, Pierre Koenig and Rafael Soriano among others in the celebrated Case Study Houses programme organized by the Arts Architecture magazine with the aim of promoting modern architecture and experimentation with new industrial materials in domestic architecture. Ellwood's relatively short professional career spanned the years from 1948 to 1977 when he retired at the age of 55.

Modern** Michael Boyd, 2018-04-03 This is the definitive volume on Craig Ellwood a visionary architect designer and tastemaker often called the California Mies van der Rohe. Craig Ellwood the Cary Grant of architecture was one of the most visible faces of California mid century modernism. He was known as much for his exquisitely designed minimalist structures as he was for his exuberant lifestyle. This book celebrates and explores the glamour of Ellwood's work life myth and career. Through photographs primarily of the iconic houses he designed in Southern California during the 1950s and 60s we see a life of refined decadence expressed through gorgeous architecture fast cars beautiful women Hollywood style palm trees swimming pools and minimalist design all in the context of the Southern California postwar building boom. This volume will appeal to design junkies architecture buffs students of modernism and anyone interested in problem solving and elegant solutions.
