Cranes Rebound:

Crane's Rebound Alison Jackson, 1993-08 At summer basketball camp eleven year old Les must cope with loneliness peer pressure boy girl problems and a talented but obnoxious roommate *The Call of the Cranes* Bernhard Wessling, 2022-05-28 Cranes are enigmatic birds Only very little is known about the behaviour of these graceful dancers The renowned naturalist and crane expert Bernhard Wessling takes us on exciting and adventurous expeditions into their hidden world and gets to the bottom of the myths surrounding these birds of happiness With the help of a specially developed bioacoustic method Dr Wessling studied Eurasian Red Crowned Sandhill and Whooping Cranes all in the wild He has researched their intelligence social dynamics and communication and engaged in their protection Impressively illustrated and lively narrated this book presents his findings on their individually unique lives and relationships their ability to adapt and solve problems and their emotions His observations allow us to delve deeply into the cranes way of life and consciousness often demonstrating the surprising similarities between humans and animals An amazing work about the spirit of discovery humility and respect for nature in the tradition of Alexander von Humboldt Cranes are among the most captivating birds on this planet Dr Wessling knows these birds has accumulated a lifetime of observations on them and has thought deeply about their abilities In this book he seeks to overturn old ideas about how these birds live communicate and think His revelations surprise and delight and shed new light on an ancient avian family Jennifer Ackerman author of the New York Times bestseller *The Genius of Birds* and *The Bird Way* *The Call of the Cranes* is a mesmerizing vivid lyrical and revelatory book It truly is a spectacular book and a treasure Sy Montgomery naturalist and author of 31 books incl the New York Times bestseller *The Soul of an Octopus A Surprising Exploration into the Wonder of Consciousness* In this book Bernhard Wessling shares his fascinating stories about cranes through patient observations and thoughtful conclusions George Archibald Co Founder of the International Crane Foundation Senior Conservationist **Wide Rivers Crossed** Ellen Wohl, 2013-05-15 In *Wide Rivers Crossed* Ellen Wohl tells the stories of two rivers the South Platte on the western plains and the Illinois on the eastern to represent the environmental history and historical transformation of major rivers across the American prairie Wohl begins with the rivers natural histories including their geologic history physical characteristics ecological communities and earliest human impacts and follows a downstream and historical progression from the use of the rivers resources by European immigrants through increasing population density of the twentieth century to the present day The environmental changes in the South Platte and the Illinois reflect the relentless efforts by humans to control the distribution of water to enhance surface water in the arid western prairie and to limit the spread of floods and drain the wetlands along the rivers in the water abundant east In addition during the past two centuries crops replaced native vegetation excess snowmelt and rainfall carried fertilizers and pesticides into streams and levees dams and drainage altered distribution These changes cascaded through networks starting in small headwater tributaries and reduced the ability of

rivers to supply the clean water fertile soil and natural habitats they had provided for centuries Understanding how these rivers and rivers in general function and how these functions have been altered over time will allow us to find innovative approaches to restoring river ecosystems Wide Rivers Crossed looks at these historical changes and discusses opportunities for much needed protection and restoration for the future

Tale of Two Cranes Nathaniel Gronewold,2023-09-08 It s been 50 years since the United States attempted a conservation revolution with the passing of the Endangered Species Act in 1973 Now fifty years later the Fish and Wildlife Service finds itself at a crossroads some recovery efforts are succeeding but too many are either failing or stuck in neutral even after decades of work Take for example the story of two cranes the whoopingcrane of southeastern Texas and the red crowned crane of northern Japan Both were pushed to the brink of extinction by the early 1900s with surviving populations numbering as few as 20 to 40 individuals and are now the subjects of concerted recovery efforts led by advanced national governments The U S Fish and Wildlife Service has focused mainly on habitat protection while at Japan s Ministry of the Environment conservation authorities have leaned most heavily on direct population survival via a long standing winter feeding program These two case studies provide a template for comparing different approaches towards endangered species habitat management vs population management Thus far the Japanese approach has proved more successful but the story isn t over yet What can these lessons teach us about managing other endangered species Can species rehabilitation be standardized or must each effort be designed and implemented on a case by case basis A Tale of Two Cranes will serve as a launching pad for better understanding the progress and pitfalls inherent in endangered species management through 50 years of lessons learned since the landmark Endangered Species Act was enacted by the United States Congress in December 1973 Also considering its success stories like the Attwater s prairie chicken the ESA has had an enormous impact on conservation theory and practice throughout the world from Tasmanian devils in Australia to the vaquita porpoises of Mexico But worsening government budget constraints public inattention and a continuous string of setbacks experienced within numerous rehabilitation initiatives will all eventually conspire to challenge the conventional thinking on endangered species management like never before Author Nathaniel Gronewold explains how we got here where things stand today and what lessons conservationists must take to heart as the world continues to struggle to put a halt to an ongoing global extinction crisis
