## **Cranking Up A Fine War A Louisiana Soldier From Boot Camp To Generals Aide:**

**Cranking Up a Fine War** Van R Mayhall, 1999-05 Cranking up a fine war is the account of a young soldier's personal journey through World War II and of the shared experiences of all the soldiers who made their way from boot camp to the battlefields of Europe on the path of victory Page 4 of cover *The Rise of the G.I. Army, 1940-1941* Paul Dickson, 2022-03-30 A must read book that explores a vital pre war effort with deep research and gripping writing Washington Times In The rise of the G I Army 1940 1941 Paul Dickson tells the dramatic story of how the American Army was mobilized from scattered outposts two years before Pearl Harbor into the disciplined and mobile fighting force that helped win World War II In September 1939 when Nazi Germany invaded Poland and initiated World War II America had strong isolationist leanings The US Army stood at fewer than 200 000 men unprepared to defend the country much less carry the fight to Europe and the Far East And yet less than a year after Pearl Harbor the American army led the Allied invasion of North Africa beginning the campaign that would defeat Germany and the Navy and Marines were fully engaged with Japan in the Pacific Dickson chronicles this transformation from Franklin Roosevelt's selection of George C Marshall to be Army Chief of Staff to the remarkable peacetime draft of 1940 and the massive and unprecedented mock battles in Tennessee Louisiana and the Carolinas by which the skill and spirit of the Army were forged and out of which iconic leaders like Eisenhower Bradley and Clark emerged The narrative unfolds against a backdrop of political and cultural isolationist resistance and racial tension at home and the increasingly perceived threat of attack from both Germany and Japan [The General Who Wore Six Stars](#) Hank H. **Mobilizing the South** Christopher M. Rein, 2022-08-23 Throughout its history the United States has fought its major wars by mobilizing large numbers of citizen soldiers While the small peacetime regular army provided trained leadership and a framework for growth the citizen soldier from the minuteman of the American Revolution to Civil War volunteers and the draftees of World War II have successfully prosecuted the nation's major wars But the Army and the nation have never fully resolved the myriad problems surrounding the mobilization and employment of reserve troops National Guard divisions in World War II suffered from neglect during the interwar period and Great Depression and regular Army commanders often replaced or relieved National Guard officers which generated lingering resentment At the same time draftees from across the nation diluted the regional affiliations of many units with a corresponding effect on morale and esprit de corps Chris Rein's study of one division recruited from the Gulf South and employed in the Southwest Pacific Theater in 1944 and 1945 highlights the challenges of reserve mobilization training and the combat deployment of National Guard units His account demonstrates the still strong connections between the local communities that hosted and supported National Guard companies before the war even after an influx of new personnel nationalized the units and they shipped overseas The 31st Division reorganized after combat deployment in World War I consisted primarily of infantry regiments from Florida Alabama

Mississippi and until 1942 Louisiana Mobilized for federal service in late 1940 the division participated in the critical Louisiana and Carolina Maneuvers in 1941 but then languished for the next two years as a training organization though it provided trained cadres and replacements for other divisions the Army deployed to Europe and the Pacific In 1944 the division finally shipped overseas enduring the brutal conditions in the Southwest Pacific but successfully conducting landings on the New Guinea coast in support of Gen Douglas MacArthur's island hopping campaign directed at liberating the Philippines After a change in leadership on the second day of the amphibious assault on Morotai the division supported the liberation of Mindanao the southernmost major island in the archipelago before redeploying for demobilization at the end of 1945 Rein's study traces the division's decades of duty from the interwar period when it contended with a series of devastating natural disasters through its mobilization and combat deployment However within the 31st Division's story there are several significant issues that remain highly relevant for reserve deployment today The first centers on the issue of World War II era National Guard leadership The Army implemented a purge of overage and less competent National Guard division commanders in order to replace them with younger officers of the regular Army Maj Gen John C Persons a pre war Birmingham resident and Alabama National Guard officer commanded the division throughout the peacetime mobilization and training and the first operation in New Guinea only to be summarily fired on the second day of the Morotai landings an action not adequately explained in the existing literature The second issue concerns the Army's nationalization of regional units While this policy has the benefit of spreading any casualties across the nation rather than duplicate the horrific losses of the Bedford Boys of the 29th Infantry Division that devastated one small Virginia community it also erodes regional identity and esprit de corps This work is a case study of the strength and weaknesses of units with a regional identity and explores the connections with the home front once that identity erodes It also examines the Dixie Division's operational and strategic evolution but just as importantly details drawn from soldiers correspondence and oral histories to show how their exposure to a larger world including service alongside African American and Filipino units changed their views on race and post war society

**Advance and Destroy** John Rickard, 2011-10-01 In the winter of 1944-1945 Hitler sought to divide Allied forces in the heavily forested Ardennes region of Luxembourg and Belgium He deployed more than 400,000 troops in one of the last major German offensives of the war which became known as the Battle of the Bulge in a desperate attempt to regain the strategic initiative in the West Hitler's effort failed for a variety of reasons but many historians assert that Lieutenant General George S Patton Jr's Third Army was ultimately responsible for securing Allied victory Although Patton has assumed a larger than life reputation for his leadership in the years since World War II scholars have paid little attention to his generalship in the Ardennes following the relief of Bastogne In *Advance and Destroy* Captain John Nelson Rickard explores the commander's operational performance during the entire Ardennes campaign through his estimate of the situation the U S Army's doctrinal approach to problem solving Patton's day by day situational understanding of the Battle of

the Bulge as revealed through ULTRA intelligence and the influence of the other Allied generals on his decision making gives readers an in depth critical analysis of Patton s overall effectiveness measured in terms of mission accomplishment his ability to gain and hold ground and a cost benefit analysis of his operations relative to the lives of his soldiers The work not only debunks myths about one of America s most controversial generals but provides new insights into his renowned military skill and colorful personality
