A-Z of Learning Outside the Classroom Russell Grigg, Helen Lewis, 2016-04-07 Learning outside the classroom has been high on the political agenda for several years now but recent Ofsted reports indicate that this can be confined to termly or yearly trips as an extra. This book provides a convincing and readable promotion of regular outdoor learning. It draws on relevant research to reinforce that working in real environments benefits children's all round development cognitively, emotionally, physically and spiritually. This is illustrated through a wide range of engaging activities from how to make a scarecrow to interpreting a painting in a gallery from getting the best from a library visit to how best to attack a medieval castle. This practical guide for busy teachers will help them to link what they do in and out of the class. It's a must for every staffroom bookshelf.
