**Creating Corporate Culture** Charles Hampden-Turner,1992      **From Discord to Harmony** LaVena Wilkin,Tony Belak,2020-02-01 Conflicts happen and the workplace can be a cacophony for competing interests Consider that organizational culture is an ensemble of shared values beliefs assumptions perceptions and norms Organizations are not solos They are an accompaniment of individuals departments and divisions and each is competing for scarce resources Measure in a little power imbalance and organizational political posturing Then scale in the fact that today s managers are faced with diversity and cultural issues ranging from race and gender to individual ethnicity principles and philosophies about which employees are more vocal All this discord can strike a sharp note of dissonance However effective resolutions can change this discord to harmony Consider that music is not a single note Rather it is the silence between the notes that makes beautiful music and conflict is that silence Unfortunately conflict has a bad reputation and it is often labeled as disagreement fighting or arguing that leads to stress retaliation and resentment Some managers spend a disproportionate amount of their workdays dealing with conflicts They have not learned what causes conflicts or how to productively manage them As a result they often avoid or force outcomes causing discord fractured relationships loss of productivity and even lawsuits Learning to fine tune inevitable conflicts will help managers orchestrate a more harmonious workplace From Discord to Harmony Making the Workplace Hum is largely evidence based and many of the chapters contain cutting edge research by experts in their respective fields

**Reinspiring the Corporation** Mark C. Scott,2000-05-18 Job Spec Construction of Cathedral in Chartres North West France Dimensions 34m high 130m long Materials 500 000 tonnes of limestone 176 stained glass windows Style Gothic Time Frame 30 years Confronted with this project would you screw it up and bin it Probably Why Because the task is too enormous Because the goal is too hard to achieve Because you could not get the people in your organization to buy into the idea But wouldn t it be fabulous if you

could achieve this or its equivalent in your place of business How then could the construction of Chartres cathedral be achieved Individuals working on a largely voluntary basis hauled and hammered stone strained on pulleys and mixed mortar to craft this monumental building What drove them A vision the fulfilment of something in which they all consummately believed something that validated the unrewarded toil something they believed in fully They call it Faith What this achievement confirms is what is possible if people believe strongly enough in what they are doing If the human soul buys into an idea with a passion with total commitment the bounds of what we are collectively capable are quite simply astounding What would it be like for a company if fifty thousand souls were as single mindedly driven to do what they did at Chartres What would AT T look like IBM ABB Your company This book argues that it is possible for the corporation to inspire and harness comparable committed co ordinated energy The process is called Reinspiration Apply it within your corporation and reap the benefits
